Special characteristics

- click!FIX system for easy installation
- ClickFix easy mounting

PHILIPS

Besonderheiten

High quality LED light

The LED technology, integrated into this Philips lamp, is a uniquely developed solution by Philips. While instantly turned on, it enables an optimal light output and brings out vivid colors in your home.

5 year warranty on LED system

On top of the standard 2 year warranty for this lamp, Philips offers 5 year warranty on the LED system, meaning the LED module and the driver in this lamp.

Warm white light

Light can have different color temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

Compatible with most dimmers

This Philips LED light includes the latest LED technology, working with most dimmers. Simply use your current dimmer, or any type of dimmer you want!

Easy to mount - click!FIX

This LED light makes use of click!FIX, a new and revolutionary mounting system, patented by Philips. With click!FIX you can easily mount your light in 4 simple steps. It's easy and quick!

Energy saving

This Philips energy saving lamp conserves energy compared to traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

Create a stylish atmosphere

This light is designed around the latest tastes, trends and lifestyles to blend effortlessly into your décor and define the localised ambience you have always desired.

Perfect to relax and socialise

The living room is the heart of any home - a place where families gather to relax and guests socialise. Lighting for your living- and bedroom has to be flexible and easy to adjust to its different uses throughout the day. Careful placement of different light sources and playing with light layering helps create the feeling of space and to give the room a warm and welcoming feel.
