- Effortlessly adapts to thick hair
- Double-sharpened cutting element cuts two times faster*
- Warranty for purchase protection

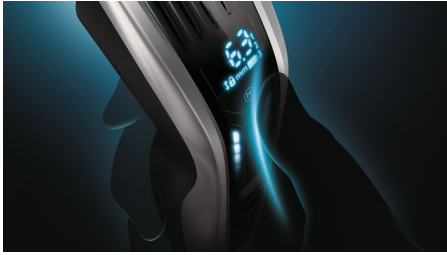

Easy to use

- Remembers your preferred settings
- Up to 120 minutes of cordless use

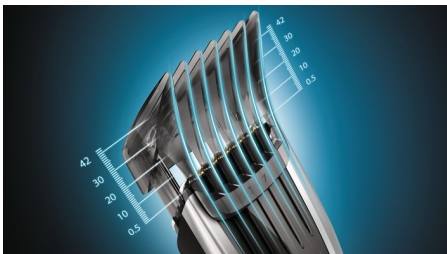

Highlights

Digital Swipe interface

The Digital Swipe interface gives you precise feedback on the selected length. Use the touch screen to easily swipe through more than 400 length settings. Quickly browse through lengths or slowly go through each small step of 0.1 mm.

400 lock-in length settings

Use the Digital Swipe to lock-in the exact length you want. There are more than 400 to choose from in 0.1mm increments, or remove the comb for a close 0.5mm trim.

3 adjustable hair combs

Experience precision clipping with 3 adjustable hair combs. Lock-in more than 400 hair lengths between 1mm and 42mm, or use the clipper without a comb for a close 0.5mm trim.

Titanium blades

Get a perfect yet protective trim with self-sharpening titanium-coated steel blades created for long-lasting performance, time after time.

Motorized Combs

Lock-in your preferred length setting to 0.1mm accuracy and keep it there with a motorised length setting system designed for precision.

Memory Function

The smart hair clipper that saves you time, not only does it remember your last cutting length, it can memorise your 3 preferred settings. Just select and hold the memory button.

Auto Turbo

The Auto Turbo feature automatically adapts to thicker hair, giving a little boost of extra power for an effortless cutting motion.
