

HP Hardware Support Onsite Service

HP Care Pack Services

Service benefits

- Improved product uptime
- Flexibility to meet specific service needs
- Convenient onsite support from qualified experts

Service highlights

- Remote problem diagnosis and support
- Onsite hardware support
- Replacement parts and materials
- Firmware updates for selected products
- Choice of coverage windows and response times
- Access to electronic support information and services

Service overview

HP Hardware Support Onsite Service provides remote assistance and onsite support for your covered hardware, helping you improve product uptime. Choose between multiple service-level options featuring several onsite response coverage window combinations in various durations to address your specific service needs. Service-level options with Call to Repair provide access to support specialists who quickly begin troubleshooting the system to help return your hardware to operating condition within a specified timeframe.

Features and specifications

Remote problem diagnosis and support

After receiving and acknowledging your call, HP will begin to isolate, troubleshoot, remedy, and resolve the hardware incident. Prior to onsite assistance, HP may perform remote diagnostics using electronic remote support to access covered products or use other means available to facilitate remote resolution. HP will provide telephone assistance during the service-coverage window for customer-installable firmware and Customer Self Repair (CSR) parts. Regardless of your coverage window, incidents with covered hardware can be reported to HP by phone or website, as locally available, or as an automated equipment reporting event via HP electronic remote support solutions 24 x 7. HP will acknowledge the receipt of the service request by logging the call, assigning a case ID, and communicating that case ID to you. HP retains the right to determine the final resolution of all reported incidents.

Onsite hardware support

For hardware incidents that cannot be resolved remotely, an authorized representative will provide onsite technical support on covered hardware products to return them to operating condition. HP may elect to replace certain products in lieu of repairing them. Replacement products will be new or functionally equivalent to new. Replaced products become the property of HP. After they arrive, representatives will deliver service onsite or remotely, at their discretion, until the products are repaired. Work may be suspended temporarily if parts or additional resources are required, but it will resume when they become available.

Features and specifications (continued)

- **Fix on failure:** At the time of onsite technical support delivery, HP may install available engineering improvements and non-customer-installable firmware updates for covered hardware products required to return the covered product to operating condition or to maintain supportability by HP.
- **Fix on request:** At your request, HP may install critical, non-customer-installable firmware updates that are recommended by the HP product division for immediate installation on covered hardware products.

Replacement parts and materials

HP will provide HP-supported replacement parts and materials necessary to maintain the covered product in operating condition, including those for available and recommended engineering improvements. Replacement parts will be new or functionally equivalent to new in performance. Replaced parts become the property of HP. If you wish to retain, degauss, or otherwise physically destroy replaced parts, you will be billed and required to pay the list price for the replacement part.

Supplies and consumable parts are not supported and will not be provided as part of this service; standard warranty terms and conditions apply to supplies and consumable parts. Repair or replacement of any supplies or consumables is your responsibility. Some exceptions may apply; contact HP for more information. See the “Coverage” section on page 6 for more details.

Firmware updates for selected products

HP firmware updates are available to customers with an active agreement that entitles them to access these updates. As part of this service, you have the right to download, install, and use firmware updates for covered products, subject to license restrictions in HP’s current standard sales terms. HP may provide, install, or assist with installation of firmware updates in conjunction with onsite hardware support if you have a valid license to use the related software updates.

Optional service features

- **Accidental damage protection:** Specific service levels may include protection against accidental damage from handling eligible, covered hardware products. Accidental damage is defined as physical damage to a product caused by or resulting from a sudden and unforeseen incident, provided such damage occurs in the course of regular use. Examples include non-intentional liquid spills in or on the unit, drops, falls, and electrical surges, as well as damaged or broken liquid crystal displays (LCDs) and broken parts. Country restrictions may apply; check with your local HP representative.
- **Defective media retention:** This option allows you to retain defective hard disk drives or SSD/flash drive components that you do not want to relinquish due to sensitive data they might contain. All eligible drives on a covered system must participate in the defective media retention.
- **Call to Repair:** A Call-to-Repair time commitment may be selected for eligible products in lieu of an onsite response time. For critical problems with covered products that cannot be resolved remotely in a timely manner, HP will use commercially reasonable efforts to return the covered hardware to operating condition within a specified time period after the initial service request to the HP Solution Center. Call to Repair is not available in all regions. Contact a local HP sales office for more details.
- **Enhanced parts inventory management:** To support Call-to-Repair time commitments, HP maintains an inventory of critical replacement parts to be stored at an HP designated facility. These parts are managed to enable increased inventory availability and are accessible to HP authorized representatives responding to eligible support requests. Enhanced parts inventory management is included with select, optional Call-to-Repair time commitments.

Features and specifications (continued)

- **Desktop-/workstation-/mobile workstation-/thin client-/notebook-only coverage:** For eligible PC products, you may choose coverage for desktops, workstations, mobile workstations, thin clients, or notebooks only. HP Care Packs with this coverage limitation do not cover external monitors or accessories that are not purchased and included in the original packaging of the product.
- **Maintenance kit replacement:** An HP trained technician travels to your site and provides all labor, parts, and materials necessary to replace the maintenance kit and clean the printer. The printer must be operating properly before the kit can be installed. HP may use remanufactured parts that are equivalent to new in performance; replaced parts become the property of HP. The repair commitment is complete when the technician replaces the maintenance kit and successfully prints a test page.

Delivery specifications

Coverage window

The coverage window specifies the time during which the described services are delivered onsite or remotely. An HP authorized representative will arrive onsite during the coverage window to begin hardware maintenance service within the appropriate response interval after the call has been received and acknowledged by HP. Calls received outside the coverage window will be logged at the time of the call, acknowledged the next coverage day, and serviced within the appropriate response interval.

All coverage windows are subject to local availability. Contact a local HP sales office for detailed information on service availability.

Service-level options

Contact a local HP sales office for detailed information on service availability and coverage.

Service-level option	Coverage window
Second-business-day onsite response, standard business hours (9 x 5)	9 hours per day (8:00 a.m. to 5:00 p.m. local time), 5 days per week (Monday through Friday, excluding HP holidays)
Next-business-day onsite response, standard business hours (9 x 5)	
4-hour onsite response, standard business hours (9 x 5)	
Next-day onsite response, standard business hours (9 x 7)	9 hours per day (8:00 a.m. to 5:00 p.m. local time), 7 days per week (including HP holidays)
4-hour onsite response, standard business hours (9 x 7)	
4-hour onsite response, extended business hours (13 x 5)	13 hours per day (8:00 a.m. to 9:00 p.m. local time), 5 days per week (Monday through Friday, excluding HP holidays)
4-hour onsite response, extended business hours (13 x 7)	13 hours per day (8:00 a.m. to 9:00 p.m. local time), 7 days per week (including HP holidays)
4-hour onsite response, 24 x 7	24 hours per day, 7 days per week (including HP holidays)
6-hour Call to Repair	24 hours per day, 7 days per week (including HP holidays) For critical incidents with covered hardware, HP will use commercially reasonable efforts to return the covered hardware to operating condition within 6 hours of the initial call to HP, if this time falls within the coverage window.
24-hour Call to Repair, 24 x 7	24 hours per day, 7 days per week (including HP holidays) For critical incidents with covered hardware, HP will use commercially reasonable efforts to return the covered hardware to operating condition within 24 hours after the call has been received and acknowledged by HP.

Delivery specifications (continued)

Onsite response time

For incidents with covered hardware that cannot be resolved remotely, HP will use commercially reasonable efforts to respond onsite within the specified onsite response time (i.e., on the third coverage day, on the next coverage day, or within four hours). Onsite response time begins when the initial call has been received and acknowledged by HP, and ends when the HP authorized representative arrives at your site, or when HP determines that the reported event does not currently require an onsite intervention. Response times are measured during the coverage window only and may carry over to the next day with a coverage window.

Call to Repair

Call-to-Repair time refers to the period of time that begins when the initial service request is logged at the HP Solution Center and ends when HP determines that the hardware is repaired. Call-to-Repair times are measured during the coverage window only and may be carried over to the next day for which there exists a coverage window. Contact your HP representative for available Call-to-Repair times in your region. All Call-to-Repair times are subject to local availability.

Repair is considered complete upon HP verification that the hardware malfunction has been corrected or that the hardware has been replaced. Verification by HP may be accomplished by the completion of a power-on self-test, standalone diagnostic, or visual verification of proper operation. At its sole discretion, HP will determine the level of testing necessary to verify that the hardware is repaired. At its sole discretion, HP may temporarily or permanently replace the product in order to meet the repair-time commitment. Replacement products are new or equivalent to new in performance. Replaced products become the property of HP.

It may take up to 60 days from the time this service is purchased and registered to set up and perform any service-level analyses deemed necessary by HP and any associated processes and parts planning before the hardware Call-to-Repair time commitment is in effect. During this initial 60-day period, if a service-level analysis is performed, HP will provide onsite service with the shortest onsite response time possible based on parts and resource availability. Response times may vary by geography and site.

Coverage will not be supported outside the country for which the HP Call to Repair Care Pack was sold.

Escalation management

HP has established formal escalation procedures to facilitate the resolution of complex incidents. Local HP management coordinates incident escalation, enlisting the skills of appropriate HP resources and/or selected third parties to assist with problem-solving.

Access to electronic support information and services

As part of this service, HP provides access to certain commercially available electronic and web-based tools. You have access to:

- Certain capabilities that are made available to registered users, such as subscribing to hardware-related proactive service notifications and participating in support forums for solving problems and sharing best practices with other registered users.
- Expanded Web-based searches of entitled technical support documents to facilitate faster problem-solving.
- Certain HP proprietary service diagnostic tools with password access.
- A Web-based tool for submitting questions directly to HP. This tool helps to resolve problems quickly with a prequalification process that routes the support or service request to the resource qualified to answer the question. It also allows the status of each support or service request submitted to be viewed, including cases submitted by phone.
- HP and third-party hosted knowledge databases for certain third-party products, where you can search for and retrieve product information, find answers to support questions, and participate in support forums. This service may be limited by third-party access restrictions.

Electronic remote support solution

For eligible products, the electronic remote support solution provides robust troubleshooting and repair capabilities. It can include remote system access solutions and may offer a convenient central point of administration and an enterprise view of open incidents and history. Remote system access may enable the HP support specialist to provide more efficient troubleshooting and faster problem resolution. HP support specialists will only use remote system access with your authorization.

Work completion

Repairs are considered complete upon HP verification that the hardware malfunction has been corrected or that the hardware has been replaced. HP is not liable for any lost data; you are responsible for implementing appropriate backup procedures. Verification by HP may be accomplished by the completion of a power-on self-test, standalone diagnostic, or visual verification of proper operation. At its sole discretion, HP will determine the level of testing necessary to verify that the hardware is repaired. At its sole discretion, HP may temporarily or permanently replace the product in order to meet the repair time commitment. Replacement products are new or functionally equivalent to new in performance. Replaced products become the property of HP. Work to completion may not apply to onsite support provided for desktop, mobile, and consumer products. HP determines the final resolution of all reported incidents.

Delivery specifications (continued)

Coverage

This service provides coverage for eligible HP PCs, printers, multifunction printers (MFPs), and other HP-branded hardware products, including HP-supported and supplied internal components such as memory and optical drives. This includes attached HP-branded accessories purchased together and included in the original packaging of the main desktop, workstation, thin client, notebook, tablet, or POS printer or MFP product, such as a mouse, keyboard, docking station, jacket, port replicator, AC power adapter, finishing accessory, or paper tray.

HP Care Pack Services with this coverage limitation do not cover external HP monitors. All-in-one devices do include the display, which is not considered a separate, external monitor. However, a second monitor attached to an all-in-one device, for example, would not be covered by this HP Care Pack.

HP docking stations or port replicators are covered within the country where the HP Care Pack was purchased, but not outside the country of purchase.

For HP point of sale (POS) systems and bundled product solutions such as retail or mobile point of sale solutions, this service covers the base unit only, unless the service states it is a POS solution service, which provides coverage for the base unit as well as up to six peripherals with HP part numbers and serial numbers, such as cash drawers, printers, pole displays for monitors, and barcode readers or handheld scanners that have been sold as part of the POS or bundled product solution.

Coverage for eligible multivendor systems includes all standard vendor-supplied internal components and the external monitor, keyboard, and mouse.

Consumable items including but not limited to removable media, customer-replaceable batteries, tablet PC pens, maintenance kits, and other supplies, as well as user maintenance and non-HP devices, are not covered by this service. Batteries for mobile HP commercial PCs are covered for up to three years. Search for "Understanding Battery Warranties for Business Notebooks" on hp.com for more details.

For replacement parts and components that are discontinued, an upgrade path may be required. Upgrades for discontinued parts or components may in some cases result in additional charges. HP will work with you to recommend replacements. Not all components will have available replacements in all countries due to local support capabilities.

Prerequisites

You must have appropriate licenses for any underlying firmware that will be covered under these services. HP may require a service-level analysis on covered products. If so, an HP authorized representative will contact you to arrange for the service-level analysis to be performed. During this analysis, HP will gather key system configuration information, which will enable HP resolution engineers to survey and troubleshoot possible future hardware problems and complete repairs as quickly and efficiently as possible. Service-level analysis may be performed onsite, via remote system access, remote tools, or over the phone, at the sole discretion of HP.

It may take up to sixty days to perform audits and processes that must be completed for Call to Repair before the hardware Call-to-Repair time commitment can be put into effect.

There will be a review for eligibility for Call to Repair. You must provide to HP all the required coverage locations prior to the review.

Delivery specifications (continued)

HP reserves the right to downgrade service to an onsite response time or cancel the service contract if critical audit suggestions are not followed or the audit is not performed within the specified timeframe, unless the delay is caused by HP.

For hardware onsite response time options, HP strongly recommends that you install and operate the appropriate HP remote support solution with a secure connection to HP in order to enable the delivery of the service. For hardware Call-to-Repair time commitments, the HP remote support solution is required. If the appropriate HP remote support solution is not deployed, HP may not be able to provide the service as defined and is not obligated to do so. Additional charges will be applied for onsite installation of non-customer-installable firmware if the appropriate HP remote support solution is not deployed.

Customer responsibilities

If specified customer responsibilities are not met, HP will (i) not be obligated to deliver the services as described, or (ii) perform such service at your expense at the prevailing time and material rates.

If required by HP, you or an HP authorized representative must activate the hardware product to be supported within ten days of purchase of this service, using the registration instructions within the HP Care Pack or the email document provided by HP, or as otherwise directed by HP. If a covered product changes location, activation and registration (or a proper adjustment to existing HP registration) must occur within ten days of the change.

HP will conduct a review to determine whether the service can be covered in the new location. If it is determined that HP cannot support Call to Repair in the new location, service will default to Next Business Day Onsite terms and conditions.

The Call-to-Repair time commitment requires immediate and unrestricted access to your system when requested by HP. The Call-to-Repair time commitment does not apply when system access, including physical, remote troubleshooting, and hardware diagnostic assessments is delayed or denied. If you request scheduled service, the Call-to-Repair time period begins at the agreed-upon scheduled time.

An appropriate HP remote support solution, with a secure connection to HP, is strongly recommended for hardware onsite response time options, and required for hardware Call-to-Repair time commitments. You must provide all necessary resources, according to the HP remote support solution release notes, in order to enable the delivery of the service and options. When an HP remote support solution is installed, you must also maintain the contact details configured in the remote support solution that HP will use in responding to a device failure. Please contact a local HP representative for further details on requirements, specifications, and exclusions.

Upon request, you must support HP remote problem resolution efforts with the following actions:

- Provide all information necessary for HP to deliver timely and professional remote support and to enable HP to determine the level of support eligibility.
- Start self-tests and install and run other diagnostic tools and programs.
- Install customer-installable firmware updates and patches.
- Perform other reasonable activities to help HP identify or resolve problems, as requested by HP.

Delivery specifications (continued)

You are responsible for installing, in a timely manner, critical customer-installable firmware updates, as well as Customer Self Repair (CSR) parts and replacement products delivered to you. You agree to pay additional charges if you request that HP install customer-installable firmware updates or patches. Any additional charges to you will be on a time-and-materials basis unless otherwise previously agreed in writing.

In cases where CSR parts or replacement products are shipped to resolve a problem, you are responsible for returning the defective part or product within a time period designated by HP. If HP does not receive the defective part or product within the designated time period, or if the part or product is degaussed or otherwise physically damaged upon receipt, you will be required to pay the HP list price for the defective part or product, as determined by HP.

You are responsible for the security of your own proprietary and confidential information, and for properly sanitizing or removing data from products that may be replaced and returned to HP as part of the repair process. For more information on these responsibilities, including those outlined in the HP Media Sanitization Policy and Media Handling Policy for Healthcare Customers, see hp.com/go/mediahandling.

Accidental damage protection (optional feature)

For HP Care Pack offerings that include the accidental damage protection optional service feature, you must report accidental damage to HP within thirty days of the incident date so that HP can expedite system repair. The report must have a detailed explanation of the accident, including when, where, and how it occurred, and a description of damage to the unit. HP will deny the claim if this information is not provided, or if the incident is reported more than thirty days after the incident date.

Defective media retention (optional feature)

With the defective media retention service feature option, it is your responsibility to:

- Retain physical control of disks or SSD/flash drives at all times; HP is not responsible for data contained on disks or SSD/flash drives.
- Ensure that any sensitive data on the retained disks or SSD/flash drives is destroyed or remains secure.
- Provide HP with identification information for each disk or SSD/flash drive retained hereunder, and execute a document provided by HP acknowledging your retention of the disks or SSD/flash drives.
- Destroy the retained disk or SSD/flash drives and/or ensure that the disk or SSD/flash drive is not put into use again.
- Dispose of all retained disks or SSD/flash drives in compliance with applicable environmental laws and regulations.

For disks or SSD/flash drives supplied to you by HP as loaner, rental, or lease products, you will promptly return the replacement disks or SSD/flash drives at the expiration or termination of support with HP. You will be solely responsible for removing all sensitive data before returning any such loaned, rented, or leased disks or SSD/flash drives to HP, and HP shall not be responsible for maintaining the confidentiality or privacy of any sensitive data that remains on such disk or SSD/flash drive.

Service limitations

At the discretion of HP, service will be provided using a combination of remote diagnosis and support, services delivered onsite, and other service delivery methods. These may include the delivery, via courier, of CSR parts or an entire replacement product. HP will determine the appropriate delivery method required to provide effective and timely support and meet the Call-to-Repair time commitment, if applicable.

HP engineers its products to be customer repairable. CSR is a key component of HP warranty terms. It allows HP to ship replacement parts, such as a keyboard, a mouse, or other parts classified as CSR parts, directly to you once a failure has been confirmed. Parts are generally shipped overnight so they can be received as quickly as possible. You can then replace the parts at your convenience.

“Mandatory” CSR is part of the standard warranty associated with some products. CSR is optional for customers with an HP Care Pack or a contractual support agreement. “Optional” allows you to perform CSR or choose to have HP service personnel perform the replacement at no additional charge during the product service coverage period.

HP Care Pack and contractual support agreements that include “onsite” terms would result in CSR parts being shipped directly to you if you choose CSR. Conversely, an HP support representative would arrive onsite to perform the repair if you decide not to utilize CSR.

HP Care Pack and contractual support agreements that include “offsite” terms such as “Pickup and Return” or “Return to HP” would require you to deliver the product to an authorized HP repair location or ship the product to HP (at the discretion of HP) if you decide not to utilize CSR.

If you agree to the recommended CSR and a CSR part is provided to return the system to operating condition, the onsite service level will not apply. In those cases, it is HP practice to express-ship CSR parts that are critical to the product operation to your location.

An onsite response time will not apply if the service can be delivered using remote diagnosis, remote support, or other service delivery methods described earlier.

For HP POS systems and bundled product solutions such as retail solutions, kiosks, or carts, service may be provided onsite for the base unit only. Service for attached peripherals will be provided by shipping replacement parts or entire replacement products for CSR or installation by the technical courier delivering the part or product.

Exclusions from HP Hardware Support Onsite Service

- Backup, recovery, and support of the operating system, other software, and data.
- Operational testing of applications or additional tests requested or required by you.
- Troubleshooting for interconnectivity or compatibility problems.
- Support for network-related problems.
- Services required due to failure to incorporate any system fix, repair, patch, or modification provided by HP.
- Services required due to failure to take avoidance action previously advised by HP.
- Services required due to improper treatment or use of the product.
- Services required due to unauthorized attempts to install, repair, maintain, or modify hardware, firmware, or software.

Service limitations (continued)

Maximum supported lifetime/maximum usage

Parts and components that have reached their maximum supported lifetime and/or the maximum usage limit as set forth in the manufacturer's operating manual, product QuickSpecs, or the technical product data sheet will not be provided, repaired, or replaced as part of this service.

Exclusions from accidental damage protection

The accidental damage protection service feature provides protection against sudden and unforeseen accidental damage from handling, provided such damage occurs in the course of regular use. It does not cover the following situations and damage due to:

- Normal wear and tear; change in color, texture, or finish; gradual deterioration; rust; dust; or corrosion.
- Fire, a vehicular or homeowner's accident (in cases in which said accident is covered by an insurance policy or other product warranty), act of nature (including, without limitation, floods), or any other peril originating from outside the product.
- Exposure to weather conditions or environmental conditions that are outside of HP specifications, exposure to hazardous (including biohazardous) materials, operator negligence, misuse, mishandling, improper electrical power supply, unauthorized repairs or attempts to repair, improper and unauthorized equipment modifications, attachments or installation, vandalism, animal or insect damage or infestation, defective batteries, battery leakage, or lack of manufacturer-specified maintenance (including the use of inappropriate cleansers).
- Error in product design, construction, programming, or instructions.
- Maintenance, repair, or replacement necessitated by loss or damage resulting from any cause other than normal use, storage, and operation of the product in accordance with the manufacturer's specifications and owner's manual.
- Theft, loss, mysterious disappearance, or misplacement.
- Data loss or corruption; business interruptions.
- Fraud (including but not limited to incorrect, misleading, erroneous, or incomplete disclosure of how the equipment was damaged).
- Accidental or other damage to the product that is cosmetic in nature, meaning damage that does not affect operation and functioning of the computer.
- Computer monitor screen imperfections—including but not limited to "burn-in" and missing pixels—caused by normal use and operation of the product.

Service limitations (continued)

- Damage to products whose serial numbers are removed or altered.
- Damage or equipment failure that is covered by manufacturer's warranty, recall, or factory bulletins.
- Damage caused during shipment of the covered product to or from another location.
- Damage to hardware, software, media, data, etc., stemming from causes including but not limited to viruses; application programs; network programs; upgrades; formatting of any kind; databases; files; drivers; source code; object code or proprietary data; any support, configuration, installation, or reinstallation of any software or data; or use of damaged or defective media.
- Any and all pre-existing conditions that occurred prior to the purchase date of the HP Care Pack.
- Product obsolescence.
- Any equipment relocated outside the country of purchase and not covered by an HP Travel + Accidental Damage Protection Care Pack.
- Damaged or defective LCD screens when the failure is caused by abuse or is otherwise excluded herein.
- Intentional damage that results in a cracked or damaged computer display screen or damaged monitor.
- Damage due to police action, undeclared or declared war, nuclear incident, or terrorism.
- Alteration or modification of the covered product in any way.
- Any willful act to cause damage to the covered product.
- Reckless, negligent, or abusive conduct while handling or using the product.
- Unit cracks or holes when the damage does not penetrate the outer case and/or reveal internal circuitry or sharp edges.
- Missing or broken keyboard caps not related to a covered accident (e.g., drop, liquid spill).

Limitations to accidental damage protection

Eligibility for purchase of the accidental damage protection service feature requires the product to be covered by a factory warranty or a warranty extension service with coverage duration equal to or longer than the accidental damage protection service.

If protective items such as covers, carrying cases, or pouches were provided or made available for use with the covered product, you must continually use these product accessories to be eligible for protection under this accidental damage coverage service.

Reckless, negligent, or abusive conduct includes but is not limited to the treatment and use of the covered products in a harmful, injurious, or offensive manner that may result in damage, as well as any willful or intentional damage to the product. Any damage resulting from such acts is not covered by this accidental damage protection service feature.

Once the specified limit is reached, the cost of repair for any additional claims will be charged on a time-and-materials basis, but all other aspects of the HP Care Pack purchased will remain in effect unless specifically documented otherwise in the country of purchase.

For customers with a history of significantly high claims, HP reserves the right to deny requests to purchase the accidental damage protection feature.

Service limitations (continued)

Country restrictions may apply. Contact a local HP sales office for detailed information on service availability for accidental damage protection.

Limitations to defective media retention

The defective media retention service feature option applies only to disks or eligible SSD/flash drives replaced by HP due to malfunction. It does not apply to any exchange of disks or SSD/flash drives that have not failed.

SSD/flash drives that are specified by HP as consumable parts and/or that have exceeded the maximum supported lifetime and/or the maximum usage limit as set forth in the manufacturer's operating manual, the product QuickSpecs, or the technical data sheet are not eligible for the defective media retention service feature option.

Failure rates on disks and SSD/flash drives are constantly monitored, and HP reserves the right to cancel this service with thirty days' notice if HP reasonably believes that you are overusing the defective media retention service feature option (such as when replacement of defective disks or SSD/flash drives materially exceeds the standard failure rates for the system involved).

HP shall have no obligation whatsoever with respect to the contents of or the destruction of any disk or SSD/flash drive retained by you, or sent to HP by you. Notwithstanding anything in the current HP standard sales terms or the technical data sheet to the contrary, in no event will HP or its affiliates, subcontractors, or suppliers be liable for any incidental, special, or consequential damages or damages for loss of or misuse of data under this defective media retention service.

Failure rates on these components are constantly monitored, and HP reserves the right to cancel this service with thirty days' notice if HP reasonably believes that you are overusing the defective media retention service feature option (such as when replacement of defective data-retentive components materially exceeds the standard failure rates for the system involved).

Exclusions from maintenance kit replacement

This feature does not include any repair beyond the replacement of the maintenance kit. Should your printer need any additional part replacements, there will be a separate charge for this service. Maintenance kits for HP printers can only be replaced by authorized HP technicians.

Service limitations (continued)

Incident severity level

HP will acknowledge a call by logging a case, communicating the case ID to you, and confirming the incident severity and time requirements for commencement of remedial action. Note: For events received via HP electronic remote support solutions, HP will contact you, ask you to define the incident severity, and arrange access to the system before the hardware Call-to-Repair time or hardware onsite response time period can start. Hardware support onsite response time and Call-to-Repair time commitments may differ depending on incident severity. You determine the incident severity level.

Severity level	Examples
Severity 1: Critical Down	Production environment down; production system or production application down/at severe risk; data corruption/loss or risk; business severely affected; safety issues
Severity 2: Critically Degraded	Production environment severely impaired; production system or production application interrupted/compromised; risk of reoccurrence; significant impact on business
Severity 3: Normal	Non-production system (e.g., test system) down or degraded; production system or production application degraded with workaround in place; noncritical functionality lost; limited impact on the business
Severity 4: Low	No business or user impact

Travel zones

All hardware onsite response times apply only to sites located within 100 miles (160km) of an HP designated support hub. Response times to sites located more than 100 miles (160km) from an HP designated support hub will have modified response times for extended travel, as shown in the table below. Distances indicated below are for guidance only. For more information on travel zones, contact a local HP sales office.

Distance from HP designated support hub	Next-coverage-day onsite response time
0–100 miles (0–160km)	Next-coverage-day onsite response time
101–200 miles (161–320km)	1 additional coverage day
201–300 miles (321–480km)	2 additional coverage days
Beyond 300 miles (480km)	Established at time of order and subject to resource availability

Call to Repair is available only for sites located within 50 miles (80km) of an HP designated support hub. For sites that are located within 51 to 100 miles (81 to 160km) of an HP designated support hub, an adjusted hardware Call-to-Repair time commitment applies, as shown in the next table. The hardware Call-to-Repair time commitment is not available for sites located more than 100 miles (160 km) from an HP designated support hub. Distances indicated below are for guidance only. For more information on travel zones, contact a local HP sales office.

Service limitations (continued)

Distance from HP designated support hub	Committed hardware Call-to-Repair time
0–50 miles (0–80km)	Committed Call-to-Repair time applies
51–100 miles (81–160km)	Committed Call-to-Repair time applies
Beyond 100 miles (160km)	Check with your local HP representative

Travel to sites located within 200 miles (320km) of an HP designated support hub is provided at no additional charge. If the site is located more than 200 miles (320km) from the HP designated support hub, there will be an additional travel charge.

If the product is located or is to be installed outside of the specified travel zone, or the site location is not accessible by driving and thus requires special access (e.g., oil rigs, ships, or remote areas in deserts), service may be subject to additional support charges, longer response times, reduced coverage hours, or pickup and return service delivery, as determined by HP. Please check local support conditions with your HP sales representative.

Travel zones and charges may vary in some geographic locations.

Coverage may not be supported outside the country for which the Call to Repair HP Care Pack was sold. Please check with your local HP representative for details.

Ordering information

All units and options with individually sold HP Care Pack offerings must be ordered with the same service level as the product they are contained in for that service level to be available for those units and options. Availability of service features and service levels may vary according to local resources and may be restricted to eligible products and geographic locations. Contact your local HP sales representative or channel partner to order HP Hardware Support Onsite Service, or to request additional details.

Terms and conditions
