## Helping you stay in control

Designed to improve medication delivery

OptiChamber Diamond is designed to allow medication to be delivered to the lungs. The anti-static material inside the tube allows the aerosol to be suspended longer, giving you more time to inhale.\*

### Comfort

- Optional mask contours to face to make it easier to fit
- One size mouthpiece works for all

### Effective treatment

- Get medicine to the lungs\*\*

### Designed for performance

- Special features make it easy to use and maintain
- Low resistance valves let you breathe easily
- Anti-static valved holding chamber gives you more time

### For commonly prescribed medications

- For commonly prescribed medications

# Highlights

## Get medicine to the lungs

OptiChamber Diamond is designed to improve aerosol delivery to the lungs and can help you maximize the effectiveness of your inhaled therapies.

## Breathe easier

Low resistance valves

Low resistance valves open freely, even under low flow rates from children, allowing you or your child to breathe easily through the chamber.\*

## Compatible

OptiChamber Diamond is designed for use with all your commonly prescribed inhaler medications.

## Easy use, easy maintenance

The adapter keeps your inhaler securely in place, while the built-in whistle lets you know if you are breathing in too fast. Both the mouthpiece and adapter are easily removed for cleaning.

## Time to breathe

OptiChamber Diamond is designed to allow medication to be delivered to the lungs. The anti-static material inside the tube allows the aerosol to be suspended longer, giving you more time to inhale.\*

## Comfort

The detachable LiteTouch facemask has a soft contoured cushion that fits easily and rests gently on the face to provide a more comfortable treatment. The SoftTouch seal helps reduce leakage.\*\*

## For adults and children

Designed with a stepped mouthpiece, the OptiChamber Diamond can be used by both children and adults.
