Sharp's latest large format PN-E803 is the perfect and elegant high-performance monitor for a diverse range of retail, office and public space applications. With a mission-critical design philosophy allowing demanding 24/7 operation, the PN-E803 represents Sharp's latest innovative insight and unparalleled experience in providing optimised and dedicated information display solutions.

Offering state-of-the-art LED backlight technology, which allows for class-leading slim bezels and shallow cabinet depth, Sharp's latest 80" display is an elegant addition to any professional signage application. With solid reliability, superb durability and easy operation, the monitor can be installed in either portrait and landscape mode.

Sharp's premium UV2A LCD technology is dedicated to achieving brighter whites, deeper blacks with vivid colours for an outstanding image quality with high impact in retail signage, office receptions and public spaces. Any message will be communicated confidently and effectively as well as with the added advantage of low power consumption thanks to the LED backlight.

The in-built Daisy Chain capability via the DisplayPort video connection allows up to 25 units to be connected together. Just another reason why Sharp's LCD monitors can be employed to broaden your business potential.
