Managed Wall Mount Wireless Access Point, 300Mbps 802.11b/g/n, 802.3af PoE, In-Wall Mounted

The LevelOne WAP-6202 is a superior quality Wi-Fi access point delivering ultra high-speed connectivity and extended coverage. The device can be configured to work independently in Fat mode, or as part of a centrally managed network in Fit mode. The device is PoE, so does not need to be placed near a power source. Designed to be mounted on a wall, the stylish low profile and front port access compliments the device's powerful performance, and a built-in USB port allows easy storage and transfer of data.
