The LG UF6800 4K UHD makes everything look good. With 4 times the resolution of Full HD for native 4K content and the Tru-4K Engine Pro that upscales content through a multi-step process to enhance everything else; your big screen images will look crystal clear. Some panels lose colour and contrast consistency unless you have the coveted seat directly in front of the TV. Not so with LG's IPS 4K Panel. Now the whole family can enjoy superior picture quality no matter where they sit. LG's webOS™ Smart TV** makes accessing content like Netflix and YouTube quick and intuitive so you can spend less time navigating and more time enjoying your TV.
