Designed to enhance your cinema at home
- One-Touch with NFC-enabled smartphones for Bluetooth pairing
- Modern design to complement your home environment

PHILIPS

Highlights

1000W RMS power

1000W RMS power delivers great sound for movies and music

Dolby TrueHD and DTS-HD

Dolby TrueHD and DTS-HD Master Audio Essential deliver the finest sound from your Blu-ray Discs. Audio reproduced is virtually indistinguishable from the studio master, so you hear what the creators intended for you to hear. Dolby TrueHD and DTS-HD Master Audio Essential complete your high definition entertainment experience.
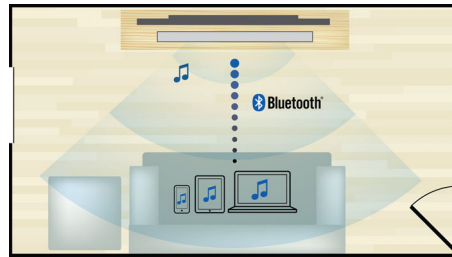

Full HD 3D Blu-ray

Be enthralled by 3D movies in your own living room on a Full HD 3D TV. Active 3D uses the latest generation of fast switching displays for real life depth and realism in full 1080x1920 HD resolution. By watching these images through special glasses with right and left lenses that are timed to open and close in synchrony with alternating images, the full HD 3D viewing experience is created in your home cinema. Premium 3D movie releases on Blu-ray offer a wide, high quality selection of content. Blu-ray also delivers uncompressed surround sound for an unbelievably real audio experience.

Bluetooth wireless streaming

Bluetooth wireless music streaming from your music devices

NFC technology

Pair Bluetooth devices easily with one-touch NFC (Near Field Communications) technology. Just tap the NFC enabled smartphone or tablet on the NFC area of a speaker to turn the speaker on, start Bluetooth pairing, and begin streaming music.

RMVB video playback

This Philips player supports video playback using RMVB, a digital video file format which is developed by Realnetworks ™. Typically used for multimedia content, files using this format have the file extension ".rmvb". The digital format ensures high quality of still images and substantially improves the quality of movement images, hence enabling an optimal equilibrium between image quality and file size.

Voole video streaming

Instantly watch TV episodes and movies as often as you want on your TV. All you need is an internet connection (either Wi-Fi or Ethernet) and a Voole membership package that includes streaming*, and you are ready to go.
