Simple, yet capable

Philips E166, striking the balance between function and form, is made to be utterly simple but remarkably capable. One touch dialing, FM tuner, dual SIM design. All together redefine what's meant to be the quality of mobile communication.

Simplicity of use

- Large buttons and big fonts for easy dialing and reading
- High volume speaker for amplified sound
- Radio music out loud on speakers
- Dual SIM for 2 groups of contacts

Single hand control

- Single button to activate handy flashlight
- Dedicated SOS button for emergency call

PHILIPS

Highlights

Big buttons and fonts

Your Philips mobile phone features large buttons with big printed fonts for dialing or texting by those with less dexterous fingers. And thanks to its big display fonts, you can now read the text on your screen comfortably without straining your eyes.

High volume speaker

With a high volume speaker, your phone can be set to emit a louder-than-normal ringtone if necessary. You will not have to worry about missing important calls, especially over ambient sounds at home or loud competing noises on the go. You can also opt to enjoy your favorite FM radio programs and music over a greater volume when it suits you.

Play FM radio out loud

The inbuilt antenna and speaker function on your Philips mobile phone means that you do not always have to plug in your earphones when you want to listen to the radio. Now you can enjoy your favorite radio stations out loud or in your ears, depending on your mood or circumstance.

Dual SIM

Organize your life better and keep your contacts separate by using 2 different phone numbers. With Dual SIM, you don't need to carry 2 phones around.

Single button for flashlight

If you do not like being left in the dark, the flashlight button feature on your mobile phone is perfect for you. Your Philips phone is transformed into a handy compact flashlight even when the phone is turned off, just by hitting the dedicated switch. Keep it right by your side at all times, and you'll never have to grope your way around in the dark again.

Emergency call button

Your Philips mobile phone is designed with a dedicated SOS button to give you and your loved ones peace of mind about your wellbeing in their absence. It allows you to identify a maximum of three different numbers where you can get immediate help when emergencies occur, whether within or outside your home. When you activate the SOS button, the phone will automatically connect to these numbers until your call gets answered by any one of the parties. This life-saving design means that you can retain your independence while maintaining easy access to immediate assistance in case you need help.

Specifications

Dimensions

- Antenna: Integrated
- Form Factor: Candy bar
- Handset dimensions: 11.4X5.1X1.35
- Handset weight: 84g
