Wet and Dry epilator

For legs, body and face 1 accessory, Cordless and rechargeable, S-shaped handle design

Highlights

S-shaped handle design

The ergonomic handle is easy to hold and steer for maximum control and optimal reach on all body areas.

Micro ridged ceramic discs

Our epilator head is unique in being made from a rough ceramic material that grabs hair firmly: even fine hairs won't slip from its grip.

Extra-wide epilator head

Extra-wide epilator head covers more skin with every stroke for faster hair removal.

Patented epilation system

All of our Philips epilators have a unique system where the tweezers lift and gather the

lying hair and guide it to the pulling point, firmly grabbing and pulling out the hair. Combined with the unique round ceramic discs, this means it epilates closer to the skin for optimal results and more gentle treatment.

Wet and dry use

For a gentle and comfortable use during your shower or bath routine with anti-slip grip for optimal wet and dry use.

Opti-light

Unique light ensures you don't miss fine hairs for best epilation results for all body parts.

Body care heads

Body care heads will bring more personalised and convenient solutions to her individual beauty routine for hair removal and beyond.

Massage cap

Massage cap eases the epilation sensation.

90-degree angle

The Philips Satinelle will always give you the best performance when used at a 90-degree angle.
