Highlights

Healthier frying

Additionally the unique technology of the Airfryer enables you to fry, bake, roast and grill, the tastiest snacks and meals with less fat than a conventional fryer, by using little or no oil! Philips Airfryer with TurboStar rapid air technology also creates less smell than conventional fryers, it is easy to clean, safe and economical for your daily use!

50% more homogenous results

The innovative Philips TurboStar rapid air technology swirls the hot air rapidly through the whole basket. This results in more homogenous heat distribution and therefore 50% more evenly fried food*. There is no need for turning- even when food is piled up. In addition, powerful direct heat from above quickly crisps the food.

Crispy and tender results

Thanks to Philips TurboStar technology, all food is exposed to this constant, circulating heat and is cooked through simultaneously. The result is evenly fried food – with no turning needed - even when food is piled up. In addition to the heated air flow, powerful direct heat from above quickly crisps the food for delicious, golden-brown results. “Crispy on the outside, tender on the inside”

Inspiring recipes

The Philips Airfryer app is free and filled with delicious recipes and easy to follow step-by-step cooking instructions. Get inspired with quick, healthy snacks or meals for special occasions.

Instant heat-up
