Healthy working

Prevents hunched posture

Did you know that an incorrect set-up of your screen has a direct effect on your work posture? A hunched posture can quickly lead to neck and shoulder complaints. In this position the weight of your head will put a force on your neck muscles which is comparable to 27 kilograms! With the use of a laptop- or tablet stand you can easily and quickly raise your screen to eye level. This way you automatically adopt an upright healthy working posture.

We care for our environment

We strive for circularity in the design and production of our products. For this commitment, we have received the **Ecovadis Platinum** certificate.
