## BlackBelt™ 2<sup>nd</sup> Degree Rugged Case for Surface Pro & Surface Pro 4 Protect Your Laptop Replacement

K97443WW

Valuable mobile productivity tools like the Surface Pro and Surface Pro 4 can't afford to get damaged. Let Kensington provide the ideal solution.

As a member of Microsoft's "Designed for Surface" program, Kensington designers have created the perfect combination of protection and function.

- **Military-Grade Protection** – A strong, rugged TPU body surrounds the Surface Pro™ and Surface Pro 4 and meets the MIL-STD-810G testing protocols for drop protection
- **Hand Strap** – Constructed of flexible silicone to fit a wide variety of hand sizes, it provides a convenient and worry-free way to hold the tablet when you're sharing or collaborating, especially if you're in a highly mobile environment
- **Unobstructed Access** – Strategic cutouts in the case allow you to take full advantage of the Surface Pro kick stand, buttons, ports and cameras
- **QuickFold™ Design** – Ideal for mobile viewing, the Type Cover can be folded down and around the backside of the rugged case so the keyboard is neatly out of the way without having to detach it
- **Type Cover Channel** – Allows you to quickly and easily attach or detach the Type Cover without having to remove the rugged case from the Surface Pro and Surface Pro 4
- **Surface Pen Holder** – Specially integrated into the case, this form-fitting area stores your Surface pen in a highly convenient spot when it's not being used so it won't go missing
