### Easy to use

- Durable OneBlade
- Wet & dry
- LED light shows battery status
- 60 min Li-Ion battery

reddot award 2016  
winner

# Highlights

## Unique OneBlade Technology

The Philips OneBlade has a revolutionary new technology designed for facial styling and body grooming. It can trim, edge and shave – any length of hair. Its dual protection system – a glide coating combined with rounded tips – makes shaving easier and comfortable. Its shaving technology features a fast-moving cutter (200x per second) so it's efficient – even on longer hairs.

## Trim it down

Trim your beard to an even length with the included adjustable precision comb. Dial up one of the 12 lock-in length settings to get everything from a 5 o'clock shadow, to a tight trim, to a longer beard style.

## Edge it up

Create precise edges with the dual-sided blade. You can shave in either direction to get great visibility and see every hair that you're cutting. Line up your style in seconds!

## Shave it off

OneBlade doesn't shave as close as a traditional blade – so your skin stays comfortable. Go against the grain and shave off any length of hair easily.

## Contour following

OneBlade follows the contours of your face allowing you to effectively and comfortably trim and shave all areas of your face.

## Dual-sided blade

OneBlade follows the contours of your face, allowing you to effectively and comfortably shave all areas. Use the dual-sided blade to style your edges and create clean lines by moving the blade in any direction.

## 12-length precision comb

The versatile precision trimming comb offers length settings from 0.5mm to 9mm, giving you an even trim at exactly the length you want.

## Durable OneBlade

The blades are designed for lasting performance. For optimal performance, you will only need to replace each blade every 4 months\*. Replacement is easy and hassle free.
