

16" Grid Essential Backpack

TSB848

Overview

The 16" Grid Essential Backpack has an interior boasting 27 liters of storage broken down into two main compartments and two external pockets. The padded exterior and padded, suspended laptop nook in the main interior compartment add up to military grade specifications, protecting your device from up to a 4ft drop—there is also a lined tablet nook in this compartment as well. The other large compartment is big enough for several text books or files and reference materials. The bottom has extra cushion and weather resistant material. The compartment with padded laptop and lined tablet nooks is also protected by a weather resistant zipper. There are also a zippered stash pockets, one on the front and a secret, zippered stash pocket in the lower pad on the back. A secure, padded handle will help you hoist the loaded backpack up and onto your shoulders, where you can easily adjust the straps for a comfortable fit.

Features

- Military grade drop test protection survives up to a 4ft drop. Padded inner vault keeps your 16" laptop suspended and safe from impact. 360I memory foam shell absorbs shock.
- Convenient exterior water bottle pocket. Hidden stash pocket doubles as lumbar support.
- Large 27 liter storage capacity
- Weather resistant poly-coated base. Comfortable mesh padded back and adjustable shoulder straps. Reflective accents increase visibility and safety.
