# C3583FQ

35 inch (88.98 cm) LCD MONITOR

### Flicker Free

AOC Flicker-Free Technology utilises a DC (Direct Current) backlight panel, reducing flickering light levels. With eye strain and fatigue absolutely minimized, feel free to enjoy those long, intense gaming sessions in comfort!

### 160 Hz Refresh Rate

Boasting a refresh rate of 160Hz – more than double the industry standard – the C3583FQ never misses a beat.
Forget motion blur; forget stuttering images; hit every shot. With a refresh rate pushed so high, every onscreen movement is crystal clear and silky smooth.

### Panel Type AMVA

The AOC C3583FQ's AMVA (Advanced Multi-Domain Vertical Alignment) panel displays deeper blacks and a super-high contrast of 2000:1 for extra vivid and bright images, while still maintaining a rapid response time of 4ms. Furthermore, the larger viewing angle of 178° is more comfortable not only for the player, but also for spectators at LAN parties and tournaments.

### Radius Curvature

A curvature radius of 2000mm makes the C3583FQ the most curved monitor available. That means you're presented maximum visual information in the widest field of view possible, bringing a tactical advantage as well as the immersion of being surrounded by the game world.

## General

| | |
|---|---|
| Carton Dimensions (mm) | 980x280x610 mm |

## Screen Details

| | |
|---|---|
| Color | Black/Silver |
