

wireless portable speaker

- Bluetooth®
- Splash-proof
- By-packed strap
- 8hrs, rechargeable battery

BT110R/00

## Small size, big bass

This compact BT110 has all the acoustic essentials that normally come only with a big speaker. That's why it sounds clear and loud with surprising good bass. Oh, it's also splash proof and has a strap. It's ready anytime, anywhere.

### Benefits

#### Impressive sound

- Anti-clipping function for loud, distortion-free music
- Advanced audio performance with a compact design
- Passive radiator for better low frequency performance

#### Simplicity in use

- Wireless music streaming via Bluetooth
- Built-in microphone for hands-free phone calls

- Audio-in for easy connection to almost any electronic device

#### Designed for grab and go

- Splash-proof design ideal for outdoor use (IPX4)
- Carry it anywhere with the by-packed finely knitted strap
- Built-in rechargeable battery for music playback anywhere

# PHILIPS

## Features

### Wireless music streaming

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to iPod/iPhone/iPad or other Bluetooth devices, such as smartphones, tablets or even laptops. So you can enjoy your favourite music and sound from videos or games wirelessly.

### Anti-clipping function

Anti-Clipping lets you play music louder and keeps the quality high, even when the battery is low. It accepts a range of input signals from 300 mV to 1000 mV and keeps your speakers safe from damage by distortion. This built-in function monitors the musical signal as it goes through the amplifier and keeps peaks within the amplifier's range, preventing the audio distortion caused by clipping without affecting loudness. A portable speaker's ability to reproduce musical peaks decreases along with battery power, but anti-clipping reduces peaks caused by low battery, keeping music distortion-free.

### Splash-proof design

Water-resistant design allows enjoyment in wet and rainy environments. Tested to stringent IPX4 standards, internal components are proven to be protected from exposure to the elements, allowing for music enjoyment indoors in the bathroom, kitchen or even outdoors whatever the weather.

### by-packed finely knitted strap

Our by-packed strap is made of a vibrant and finely knitted fabric sleeve making it stylish enough to be a fashion accessory.

### Built-in microphone

With its built-in microphone, this speaker also works as a speaker phone. When a call comes in, the music is put on pause and you can talk via the speaker. Call for a business meeting. Or, call your friend from a party. Either way, it works great.

### Audio-in
