SONY

The total touchscreen solution with BRAVIA Professional Displays

Engage audiences with a touch

Transform your BRAVIA Professional Display into a super-size touch enabled interactive terminal.

Responsive, accurate multi-touch performance

Audience engagement is right at your fingertips. Customers can't keep their hands off these big, beautiful screens: 10 multi-touch IR points ensure accurate, lag-free performance across the entire display area.

Wide range of screen size options

Go as large as you like. There's a full range of touch-enabled BRAVIA Professional Display solutions in screen sizes from 40" right up to 85" – all offering fabulous contrast, rich colours and exquisite detail in 4K or Full HD.

Big audience appeal, low running costs

Powered by direct USB connection, the energy-efficient touch overlay keeps running costs down.*

In touch with your customers everywhere

Touch-enabled BRAVIA Professional Displays are ideal for a wide range of interactive signage and information kiosk applications – from schools, universities, museums, libraries, boardrooms and offices to hotel lobbies, hospitality zones, retail stores and visitor attractions.

Looks great in every light

The screen overlay's tough anti-glare surface ensures optimum visibility, even in the sunniest environments.

Quick and easy to install and set up

Simple, fuss-free installation and set up allows deployment of your interactive touchscreen solution in minutes.

*BRAVIA display is powered separately.

Inform, entertain and engage customers with the power of touch

Our touchscreen overlay solution is available in a range of eight different sizes, for guaranteed compatibility with these BRAVIA Professional Display models (4K and Full HD).
