## Wireless Cloud IP Camera

With its compact size, the Conceptronic Wireless Cloud IP Camera can either be wall mounted or used on a desktop. Powered by a standard micro USB port, the camera can be placed anywhere nearby a power point or mobile charger, providing great mobility and a versatile way to keep an eye on your home. Keep watch on the baby's bedroom, or a close eye on the kids in the living room. Make sure the pets are behaving themselves, or that elderly people in the home are safe and happy. Easy wireless setup with one key press via a mobile app, then access the live images recorded by the camera. With cloud functionality, images can be viewed from any location in the world. Built-in infrared LEDs enable night-time monitoring. Motion detection features can be set to trigger an alarm or send email alerts to the user, providing ultimate peace of mind.

## Highlights

- > 720p HD resolution
- > Easy wireless setup via mobile app
- > Built-in Infrared LEDs for night viewing
- > Supports motion detection and event notification via e-mail or FTP
- > Built-in microphone
- > Wireless security with WEP, WPA and WPA2 encryption
- > Supports iPhone/smartphone remote viewing over the Internet
- > Supports cloud functionality
- > QR code for fast cloud-based setup
- > Dual power options- USB port or power adapter
