# OneBlade to trim, edge & shave any length of hair

Designed to cut hair, not skin

The Philips OneBlade is a revolutionary new hybrid styler that can trim, shave and create clean lines and edges, on any length of hair. Forget about using multiple steps and tools. OneBlade does it all.

## Benefits

### Comfortable shave

- Unique OneBlade Technology
- Shave it off
- Contour following

### Sharp edges

- Edge it up
- Create perfect edges & sharp lines with the dual-sided blade

### Even trim

- Trim it down
- Choose the 1, 3 or 5mm comb for an even stubble

### Easy to use

- Durable OneBlade
- Wet & dry
- Long lasting battery

# PHILIPS

## Features

### Unique OneBlade Technology

The Philips OneBlade is a revolutionary new electric grooming technology designed for men who wear facial styles and grow beards. OneBlade is designed to trim, edge, and shave any length of hair. The unique OneBlade shaving technology integrates a fast moving cutter (200x per second) with a dual protection system – giving you an efficient comfortable shave on longer hairs. OneBlade does not shave too close – so your skin stays comfortable.

### Trim it down

Trim your beard to a precision stubble length with one of the included 3 stubble combs. 1mm for a 5 o'clock, 3mm for a tight trim, and 5mm for a long stubble.

### Edge it up

Get a perfect edge on your style with the dual-sided blade. You can shave in either direction to get great visibility and see every hair that you're cutting. It stays comfortable even in sensitive areas, so it's fast and easy to line up your style in seconds.

### Shave it off

OneBlade is not too close, so your skin stays comfortable. Go against the grain and shave off any length of hair with comfort.

### Contour following

OneBlade follows the contours of your face allowing you to effectively and comfortably trim and shave all areas of your face.

### Dual-sided blade

Style your edges and create clean lines by moving the blade in any direction.

### 3 click-on stubble combs

Attach one of the click-on combs to get the even stubble length you want.

### Durable OneBlade

The blades are designed for lasting performance. For optimal performance, you will only need to replace the blade every 4 months\*. Replacement is easy and hassle free.

### Wet & dry

OneBlade is water resistant, so it is easy to clean: just rinse it under the tap. You can also shave with or without foam - whichever you prefer.

### Long lasting battery

Rechargeable battery delivers 45 minutes of constant styling power after an 8 hour charge.
