Global Charger 8000

USB Travel Charger with Quick Charge 2.0

Whether on vacation, on a business trip or during a semester abroad - the **Global Charger 8000** is the perfect travelling companion. Thanks to four different AC cables and two micro USB cables in a hard case, you can charge your devices all over the world. The new Quick Charge function from Qualcomm enables you to load your Smartphone up to 75% faster than conventional charging devices. In addition, short circuit, overheated, over current and overvoltage protection insure totally safe charging.
