

Data Sheet

Fujitsu Keyboard KBPC E USB Input Device

Best ergonomics a keyboard can offer

The ergonomic KBPC E USB keyboard from Fujitsu sets new ergonomic standards at the workplace. Exhaustive ergonomic studies ensure optimum physiological alignment. The KBPC E USB promotes the natural positioning of the user's arms and hands, for fatigue-free use by splitting the keypad into two halves, angled at up to 30° to each other.

Usability

- Connects to every PC with standard USB interface

Ergonomics

- Adjustable step by step in different planes for the optimum position of arms and hands
- Reduces risk of RSI syndrome
- Stressfree and effective use thanks to high contrast keys, ergonomic key design and a soft pressure point

Reliability

- High quality and function stability made in Germany through own development and manufacturing
- Short reaction and transportation time
- Warranty, service and spare part supply according to your needs

Environmentally friendly development

- Recycling friendly by easy separation into recyclable components
- Minimized size and weight in combination with minimized use of raw materials

Tailor-made

- Specific keycap inscriptions for your specific designs

Modern production technology

- Abrasion-proof keys thanks to laser printing technology for the keycaps
- Fully automated production line
- Highest quality coupled with the best price/performance ration, guaranteed

Keyboard KBPC E USB

Technical specifications
