SureLab D700 Mirage Bundling

The SL-D700 is designed for photo shops and photographers who want to print high quality photos and expand their printing business.

Designed for high-quality photo printing of up to one metre in length, it is Epson's first 6-colour compact photo production printer with inkjet technology. It utilises our Micro Piezo printhead and image processing technology, along with our Epson genuine ink for crisp, vivid results. It is ideal if you are looking to print photos, cards, art reproductions and other quality print products.

Outstanding flexibility
The D700 can print photos, cards, invitations, flyers and promotional leaflets on a wide range of media and formats, including glossy, lustre and matte roll paper from 102–210mm wide and from 89–1000mm in length. Because of the SureLab D700's compact size, this desktop printer can fit perfectly into a photo kiosk and is durable, as most of its parts are permanent.

High-quality production photo printing
Building on Epson's success in professional photo printing, the D700 offers a print quality and colour consistency that is inline with Epson's professional graphics printers. The SureLab D700 is ideal for printing high-quality images, greeting cards or mixed print jobs on demand. This 6-colour printer with inkjet technology has a wide colour gamut and prints sharp images. It uses a professional ink that has been formulated for premium glossy photo prints, produced at high production speeds. It offers low cost per print and has a high resolution of 720dpi x 1440dpi.

Reliable and cost-effective
This printer has a long service interval, is low maintenance and has a long-lasting blade, which help reduce downtime and save time and money.

UltraChrome D6-S ink
This printer, with the specially developed Epson UltraChrome D6-S ink, produces outstanding images with vibrant colours, intense blacks, sharp contours and smooth gradations.

KEY FEATURES

- **High-quality**
