Copy of the declaration can be obtained by contacting Wilk Elektronik SA.

 This product may not be treated as a household waste. It should be utilized in appropriate recycling center

 The product can be recycled which means that materials used for its production can be reused.

 The product is not a toy and is not intended for children under the age of three.

 It is forbidden to place the product near the naked flame.

 It is forbidden to immerse any part of this product in water or other liquid, especially when it operates.

 It is forbidden to expose this product to potential damage and excess heat or extremely low temperatures that do not comply with the product specification.

Usage and compatibility

Mass storage device intended for storage and transfer of large amounts of data between computers.

This product is compatible with the following operating systems:

- Windows® XP® / Vista / 7 / 8 / 8.1 / 10
- Mac OS X 10.4 and newer (formatting the drive to a file system other than NTFS is required)
- Linux

This product is dedicated for consumer-class applications. It is not intended to be used in systems that require high performance or high reliability (e.g. industrial applications), unless it is stated that the product is dedicated for these applications.

To achieve the highest performance, please connect the hard drive to USB 3.0 port. This hard drive is also compatible with USB 2.0 interface, but connecting it will limit its performance to the level specified by this interface.

WARNING: Computer configuration, operating system or the voltage quality in the USB port may affect performance of this external HDD.

Instruction of usage

Connect the attached USB cable to the external HDD and connect the other side of the cable to a compatible USB port. The computer will identify hard drive automatically and will install all required drivers, if needed. Product is preformatted in NTFS file system by default. Please make sure that your operating system supports this file system.

Capacity

Storage capacity for GOODRAM HDD is always expressed in decimal values. That means, 1GB equals 1 000 000 000 bytes. Operating system that use the binary conversion eg. 1GB equals 1 073 741 824 bytes may show lower storage capacity value than advertised. Additionally, a part of the storage is reserved for files and firmware, managing the drive.

Safety measures

To ensure the best user experience and safe use, please follow the precautions listed below:

Do not:

- expose this product to potential damage and excess heat or extremely low temperatures
- immerse any part of this product in water or other liquid
- place the product near the naked flame

Caution:

- provide accurate heat dissipation
- this product is not a toy and is not intended for children under the age of three.
- use this product only with compatible devices
