

Mobiles Terminal ST-1530

Models may vary from the image shown

Compact, mobile card reader

The multi-functional card terminal is suitable for stationary and mobile use. Ease of operation and problem-free compatibility with all standard software programs make the battery-powered ST-1530 a delight to use, and it can also be easily integrated into any existing EDP system. The extremely compact mobile terminal is the first of its type to feature a high-definition colour display, and when used with a USB adapter, it is also suitable for use as a table-top device.

Key benefits

- Stores eGK and KVK 200 data records
- MKT+, mobile card terminal
- USB / (series accessory)
- Listed on gematik
- Easy to operate
- Configured for HBA (Health Professional Card)
