Kensington®

SafeDome™ Cable Lock for iMac® — Master

Strong Security for a Public iMac

K67917M

Product Description

From the leader in physical security solutions for computers, the SafeDome™ Cable Lock delivers with a design that provides the highest level of anti-theft security for public or multi-user settings like a school, library or lab while also complementing the iMac's beautiful aesthetics.

Features

- Heavy-duty ClickSafe® lock secures with just one click to provide the highest level of security

- Beautiful, sleek dome design securely attaches to iMac's stand

- Ultra cable is extra thick to provide the highest level of cut resistance

- Easy to position and assemble the lock

- Built-in cable management secures wired iMac accessories

- Won't interfere with iMac adjustability

- Compatible with iMac models from 2010 and later

- Master Access allows both the user and administrators to unlock or reset locks at any time

- TAA Compliant
