Hue White Ambiance

1 x E27 Bulb

Shades of white (2,200-6,500 K)

8718696548738

Light for your moments

Add a Philips Hue white ambiance bulb to your system and enhance your home with shades of white lights. With a range from warm white to cool daylight, this bulb helps you to wake up, relax, read, concentrate or get energised.

Light for your moments

- Wake up and go to sleep naturally
- Create your ambience with warm white to cool daylight
- Relax, read, concentrate and energise with light recipes

Easy control and comfort

- Smart control, home and away
- Set timers for your convenience
- Installation-free dimming
- Control it your way
- Dimmable only with Philips Hue-compatible devices
- Wirelessly controllable LED bulb
- Requires a Philips Hue bridge

Highlights

Wake up and go to sleep

Philips Hue will help get you out of bed the way you like it, helping you to start your day feeling refreshed. The light brightness increases gradually, mimicking the effect of sunrise and helps you to wake up naturally, instead of being woken up by the loud sound of an alarm clock. Start your day the right way. In the evening, the relaxing warm white light helps you to unwind, relax and prepare your body for a good night's sleep.

Create your ambience

Set the right ambience for any moment and decorate your home with warm to cool white light. Enjoy different styles throughout the year, whether it's the crisp white light reminding you of a spring breeze, the warm white light of a summer sun or the ice cool daylight of winter.

Light for your daily routines

Light influences our mood and behaviour. Philips Hue can help you to customise your daily routines into moments that you can enjoy. Skip your morning coffee and get ready for the day with cool, bright-white daylight that helps to energise your body and mind. Stay focused with finely tuned bright-white light. Or put your feet up and relax with a soft glow of white light for the perfect end to the day.

Smart control, home and away

With the Philips Hue iOS and Android apps, you can control your lights remotely wherever you are. Check if you have forgotten to switch your lights off before you left home, and switch them on if you are working late.

Timers for your convenience

Philips Hue can make it seem like you're at home when you're not, using the schedule function in the Philips Hue app. Set the lights to come on at a pre-set time, so the lights are on when you arrive home. You can even set rooms to light up at different times. And of course, you can let the lights turn off gradually in the night, so you never have to worry whether you've left any lights on.

Installation-free dimming

Experience guaranteed smooth dimming with Philips Hue. Not too bright. Not too dark. Just right. No need for wires, an electrician or installation

Control it your way

Connect your Philips Hue lights with the bridge and start discovering the endless possibilities. Control your lights from your smartphone or tablet via the Philips Hue app, or add switches to your system to activate your lights. Set timers, notifications, alarms and more for the full Philips Hue experience. Philips Hue even works with Amazon

Alexa, Apple Homekit and Google Home to allow you to control your lights with your voice.

Compatible device required

This product is only dimmable if connected to the Philips Hue bridge or to a Philips Hue compatible device

Wirelessly controllable LED

This LED bulb is wirelessly controllable if you connect it to the Philips Hue bridge for smart control or to the Philips Hue dimmer switch.

Requires a Philips Hue bridge

Connect your Philips Hue lights with the bridge to control your lights from your smartphone or tablet via the Philips Hue app.
