Highlights

Professional filtration system

Effectively filters out harmful gases (formaldehyde, toluene and TVOC etc.) and pollutants (ultrafine particles, allergens, bacteria and viruses) with a size of >0.02 micron. *

Smart sensor

The Philips Smart Air app shows real-time air particle level on a scale of 1-10 measured by the smart sensor of the air purifier. You will be up-to-date of the air particle level including PM2.5 indication in your home and receive tips on how to improve it. Next to that you can select out of XXX places in the major cities of air sensors providing air quality index levels including PM2.5 and gases.

Air filter status

Conveniently check the remaining lifetime of the 4 filters via a clear overview in the app and get notified on time to replace filters.

Smart Air control

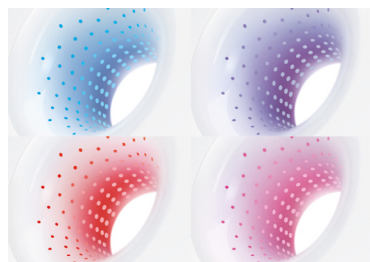

Smart control of the air purifier's fan speed via the Philips Smart Air app to ensure you always breathe healthier air. Set it to auto mode and the smart air purifier will automatically adjust fan speed according to the air quality level. Manual operation via the app lets you decide what fan speed you prefer.

Wi-Fi smart air purifier

The Philips Smart Air Purifier is Wi-Fi enabled. It connects to your home wi-fi network so you can place it anywhere in your home. You can control the Smart Air Purifier from anywhere as it works via Wi-Fi or 3G and 4G.

Air quality indicator

Light indicators show air quality level clearly on Smart Air App and Smart Air purifier.

Air alerts

You will receive alerts on your smartphone when air quality reaches unsafe levels both indoors or outdoors. The app will provide tips to improve air quality so you can take action.

Silent mode

When you go to sleep, select Silent Mode on App or device and the Smart Air Purifier turns down fan speed reducing the noise level to silent mode and all lights on products will be turned off.

Get informed on air

Get informed on air trends in your home and outside your home and get guidance to always have the best air quality.

6 settings in fan speed

6 settings to give you ample choice in fan speed.
