# PHILIPS

# Highlights

## Lightweight and compact

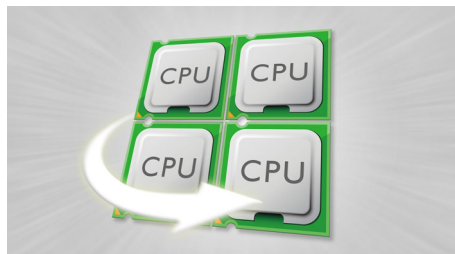

Thin and ultra light design makes this your perfect companion for work or play.

## IPS display

With a crystal-clear IPS display, images and text look brilliant and clear from every angle.

## Quad-core performance

Your Philips tablet is even more powerful with its quad-core processor. This powerhouse keeps up easily with your multitasking demands. Seamlessly load web pages and enjoy

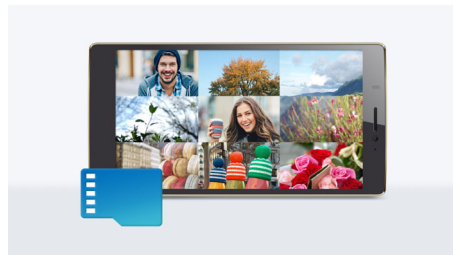

uninterrupted videos. Gaming is immersive with exceptional picture quality.

## Miracast sharing

With Miracast technology you can wirelessly share your content from your tablet to your larger Miracast enabled display in video quality and 5.1-channel audio.

## Expandable storage

In addition to the included storage the Philips tablet offers flexibility to quickly expand your storage and easily swap out memory with a Micro SD card.

## Front and rear cameras

Bring yourself to the forefront of fun shots with the front and rear cameras in your Philips tablet. Besides allowing you to take self-portraits, the front-facing camera also means that you can engage in face-to-face video calls with friends or colleagues. The rear camera allows you to capture life's fleeting moments in crystal clear quality and send them to friends and family. A built-in flash means that you can take great photos even in dim light so you can capture that perfect moment, night or day.

## Android Operating System

Powered by Android, your Philips mobile now comes with a fully customizable mobile platform that is open to a wide range of smart applications and functions. Find your pocket PC, game console, and telephone all rolled conveniently into one.
