

Grid High-Impact Protection Slipcase for 12.9-inch iPad Pro™

TSS900GL

Overview

The Grid™ Slipcase for 12.9-inch iPad Pro™ offers high-impact hooded protection plus all weather durability for the urban professional. Inspired by outdoor backpacking gear, but tailored for the commuter, Grid is built tough enough to meet Military drop test specifications, protecting your tablet at drops of up to 4 ft, even on concrete. Advanced features like the 360I Memory Foam frame and reinforced, bumpered corners are designed to protect against unexpected drops and bumps. Inside, an ultra soft Velboa lining protects your screen from scratches. The slipcase also features two smooth-coil zippered pockets to stash your charger, smartphone, or other accessories. A durable mix of layered, weather resistant materials stand up to rain, wind and impact in this ultra-protective slipcase.

Features

- Military grade drop protection up to 4ft • Weather resistant hood with magnetic closure. 360I memory foam frame protects against bumps and shocks. Soft Velboa lining prevents scratches. Reinforced, bumpered corners add impact protection.
- Two smooth-coil zippered pockets store charger and accessories
- Vertical format with convenient, removable shoulder strap
