Sustainable light solutions

- High quality LED light
- Philips offers a 5-year warranty on the LED module and driver
- Warm white light
- Energy saving

PHILIPS

Features

True skin colour

This Philips bathroom light makes colours reflect in a natural and accurate way, just the way the sun would do.

High quality LED light

The LED light bulb delivered with this Philips lamp is a unique solution developed by Philips. It turns on instantly, enables an optimal light output and brings out vivid colours in your home.

5-year warranty on LED system

On top of the standard 2-year warranty for this lamp, Philips offers a 5-year warranty on the LED system, meaning the LED module and the driver in this lamp.

Warm white light

Light can have different colour temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

Energy saving

This Philips energy-saving lamp conserves energy compared with traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

IP65 - bathroom-safe

This Philips bathroom light is especially designed for humid environments. It was tested rigorously to ensure its water resistance. The IP level is described by two figures: the first one refers to the protection level against dust, the second against water. This bathroom light is designed with IP65: it is suitable for use as shower lighting.

High-quality materials

This lamp is sculpted from layered patterns of high-quality materials with superior finishing. This ensures a solid and long lasting product that will enhance your home for many years to come.

Specifications
