HP Latex 560 Printer

Accommodate production peaks and rely on HP Latex image quality for the life of this 64-inch printer

Match peak demand with fast response times

- Load rolls in one minute or less with the spindleless pivot table and automatic skew adjustment.
- Respond fast with quality up to 23 m²/hr indoor guality mode.
- Cut risk, eliminate delays prints are dry and scratch resistant¹ immediately after printing.
- Easily produce high-quality double-sided banners - automation enables efficiency and speed.

Get vivid colour and consistent quality over time

- Produce highly saturated prints with up to 50% more ink density², using vivid print modes.
- Print colours right the first time with the i1 embedded spectrophotometer³ and HP Custom Substrate Profiling.
- Consistent, day-one image quality over time native 1200 dpi, user changes printheads, auto nozzle replacement.
- Handle robust tiling applications with consistent colours to $\leq 2 \text{ dE2000}^4$ and +/-1 mm/m length accuracy.

Keep costs low

- Get the high-quality results of high-cost materials on lower cost banners and vinyls with the wiper roller.
- Double your work space⁵ do all tasks from the front of the printer, including media/ink cartridge changes.
- Cut 2 to 3 hours/month maintenance⁶ automatic maintenance, OMAS media calibration save operator time.
- Plan production in advance, optimise supplies usage, and save time – utilities predict how much ink is needed.

 ¹ Scratch resistance is comparable to hard-solvent inks on self-adhesive vinyl and PVC banner. Scratch-resistance comparison based on testing third-generation HP Latex Inks and representative hard-solvent inks. Estimates by HP Image Permanence Lab on a range of media.
² Compared to the HP Latex 360 Printer when using the same print mode.
³ ICC profiling with the spectrophotometer does not support uncoated textiles and backlits.
⁴ The relevant detailed a printer when using the same print mode as index of a visit in the initial permission of the same print of the permission of the permission of the same print of the permission of

The colour variation inside a printed to bas been measured at 10-pass mode on vinyl media within this limit: maximum colour difference (95% of colours) <= 2 dF2000. Reflective measurements on a 943 colour target under CIE standard illuminant DS0, and according to the standard CIEDE2000 as per CIE Draft Standard DS 014-6/E:2012. 5% of colours may experience variations above 2 dE2000. Backlit substrates measured in transmission mode may yield different results.

Available work space based on internal HP testing in January, 2016 comparing the HP Latex 500 Printer series to key competitive printers. Based on internal HP testing and manual maintenance requirements published in user manuals available as of January, 2016 for key competitive products compared to automatic maintenance provided by the HP Latex 500 Printer series

Technical specifications

Print	
Printing modes	91 m²/hr - Max Speed (1-pass) 31 m²/hr - Outdoor His (4-pass) 28 m²/hr - Outdoor Plus (4-pass) 23 m²/hr - Indoor Vality (6-pass) 14 m²/hr - Indoor High Quality (10-pass) 6 m²/hr - Backlis, Textiles, and Canvas (16-pass) 5 m²/hr - High Saturation Textiles (20-pass)
Print resolution	Up to 1200 x 1200 dpi
Ink types	Water-based HP Latex Inks
Ink cartridges	7 (black, cyan, light cyan, light magenta, magenta, yellow, HP Latex Optimiser)
Cartridge size	775 ml
Printheads	7 (2 cyan/black, 2 magenta/yellow, 1 light cyan/light magenta, 2 HP Latex Optimiser)
Long-term print-to-print repeatability	Average ≤ 1 dE2000, 95% of colours ≤ 2 dE2000 ¹
Media	
Handling	Roll feed, take-up reel, wiper roller, automatic cutter (for vinyl, paper-based media, backlit polyester film)
Media types	Banners, self-adhesive vinyls, films, papers, wallcoverings, canvas, synthetics, fabrics, mesh, textiles ²
Roll size	254 to 1625-mm rolls (580 to 1625-mm rolls with full support)
Roll weight	55 kg
Roll diameter	250 mm
Thickness	Up to 0.5 mm
Applications	Banners; Displays; Double-sided banners; Exhibition and event graphics; Exterior signage; Indoor posters; Interio decoration; Light boxes - film; Light boxes - paper; Murals; POP/POS; Posters; Textile; Vehicle graphics
Connectivity	
Interfaces	Gigabit Ethernet (1000Base-T)
Dimensions (w x d	x h)
Printer	2560 x 792 x 1420 mm
Shipping	2750 x 1037 x 1689 mm
Operating area	2761 x 1792 mm
Weight	
Printer	220 kg
Shipping	330 kg
What's in the box	HP Latex 560 Printer; Printheads; Maintenance cartridge; Ink collector; Output platen protector; Printer stand; Take-up reel; Loading accessory; User maintenance kit; Edge holders; Wiper roller; Quick reference guide; Setup poster; Documentation software; Power cords
Environmental ran	ges
Operating temperature	15 to 30°C
Operating humidity	20 to 80% RH (non-condensing)
Acoustics	
Sound pressure	59 dB(A) (operating), 39 dB(A) (idle), <15 dB(A) (sleep)
Sound power	7.3 B(A) (operating), 5.4 B(A) (idle), <3.5 B(A) (sleep)
Power	
Consumption	4 kW (printing), 85 W (ready), <3 W (sleep)
Requirements	Input voltage (auto ranging) 200 to 240 VAC (-10% +10%) two wires and PE; 50/60 Hz (+/- 3 Hz); two power cords; 13 A max per power cord
Certification	
Safety	IEC 60950-1+A1+A2 compliant; EU (LVD and EN 60950-1 compliant); Russia, Belarus, and Kazakhstan (EAC)
Electromagnetic	Compliant with Class A requirements, including EU (EMC Directive)
Environmental	ENERGY STAR; WEEE; RoHS (EU, Ukraine, Turkey); REACH; EPEAT Bronze; OSHA; CE marking compliant
Linvironmentat

ECO highlights

- Better for printing companies/operators no special ventilation or HAPs[eco01] Better for the end-customer, more differentiation odorless prints reach more indoor spaces² Better for the environment HP designs end-to-end sustainability into large-format printing HP Latex Inks are UL GREENGUARD GOLD Certified³

Please recycle printing hardware and eligible printing supplies. Find out how at our website: http://www.hp.com/ecosolutions

¹ Special ventilation equipment (air filtration) is not required to meet U.S. OSHA requirements. Special ventilation equipment installation is at the discretion of the customer – see the Site Preparation Guide for details. Customers should consult state and local requirements and regulations. HP Latex Inks were tested for hazardous Air Pollutants, as defined in the Clean Air Act, per U.S. Environmental Protection Agency Method 311 (testing conducted in 2013) and nome were detected.
² There is a broad set of media with very different odor profiles. Some of the media can affect the odor performance of the final print.
³ UL GREENGUARD GOLD Certification to UL 2818 demonstrates that products are certified to UL's CREENGUARD standards for two chemical emissions into indoor air during product usage. For more information, visit http://www.ul.com/gg or http://www.greenguard.org.

Reflective measurements on a 943 colour target under CIE standard illuminant D50, and according to the standard CIEDE2000 as per CIE Draft Standard DS 014-6/E:2012. Backlit substrates measured in transmission mode may yield different results.
Performance may vary depending on media—for more information, see http://www.hp.com/go/mediasolutionslocator. For best results, use textiles that do not stretch. The optional ink collector is required for provous textiles.
This product does not contain substances listed as SVHC (155) per Annex XIV of the EU REACH directive published as of June 16, 2014 in concentrations exceeding 0.1%. To determine the status of SVHC in HP products, see the HP REACH Declaration published at HP Printing Products and Consumable Supplies.
HP Large Format Media take-back program availability varies. Some recyclable HP papers can be recycled through commonly available recycling programs. Recycling programs may not exist in your area. See http://www.HPLFMedia.com/hplecosolutions for details.
BMG trademark license code FSC®-C115519, see http://www.fsc.org. HP trademark license code FSC®-C017543, see http://www.fsc.org. Not all FSC®-certified products are available in all regions.
U. GREENGLARD GOLD certification to LU: SaR demonstrates that products are certified to UL's GREENGUARD standards for low chemical emissions into indoor air during product usage. For more information, visit http://www.ulcom/gg or http://www.greenguard.org.
