

MPN: MPK420

CAT5e Network Cable Splitter (Y-adapter)

The MPK420 Cable Splitter, also known as a Y-adapter, is a versatile accessory designed to expand your connectivity options. This high-quality cable splitter allows you to effectively double the connection points from a single port, offering a convenient solution for various applications. Whether you need to connect two devices to one output or split a signal for multiple displays, this adapter provides a reliable and efficient connection. Built with premium materials, the MPK420 ensures minimal signal loss and maximum durability. Backed by MicroConnect's 20+ years of expertise in connectivity solutions, this cable splitter offers a simple and effective way to manage your cables and expand your device capabilities with the quality and reliability you expect from a European design.
