APC Back-UPS

BE600M1

Certainty in a connected world

Power and protect all of your critical electronics while maintaining your internet connection during prolonged outages.

More Runtime: Power your critical electronics for longer than ever before; the new Back-UPS BE600M1 is capable of powering your wireless networking equipment for 4+ hours after safely shutting down your PC and other high powered devices.

More Battery Backup Outlets: Power more of your critical electronics during a power outage; the new Back-UPS have more outlets than ever before.

Outlet Spacing: Wide outlet spacing and a conveniently located USB port ensure all of your critical electronics will have uninterrupted power during outages.

Smaller and Lighter: The new Back-UPS is smaller and lighter than previous models, allowing you to easily relocate and position your UPS in any environment.
