- 5" FWVGA large display for expansive and easy viewing
- 8GB built-in memory and 1GB RAM for better experience

Simplicity of use

- Dual SIM for 2 groups of contacts

PHILIPS

Highlights

1.3GHz quad core processor

Your Philips mobile phone now zooms along like never before, thanks to the powerful 1.3GHz quad core processor. This powerhouse keeps up easily with your multitasking demands at a much faster speed. Load web pages with lightning speed, watch uninterrupted videos plus get animations fast—and we mean fast! Gaming is seamless and immersive with exceptional picture quality.

5" FWVGA TFT touch screen

Want to turn web browsing on your mobile phone into an enjoyable experience instead of a cumbersome chore? Now you can do so on your Philips smartphone, thanks to its awesome and all-encompassing 5" FWVGA display. Whether you are viewing photos or files, surfing the internet or playing your favorite games, the expansive touch screen makes the activity a pleasure with minimal screen transitions and less scrolling.

2.5D scratch Resistance glass

Refers to a slight curvature at the edge of the glass display which makes the glass feel smooth and more stylish.

8GB ROM, 1GB RAM

Your Philips mobile phone comes with a 8GB built-in memory, so you can pack more into your life on the go. With the large storage available for your ever expanding needs, there is more room for your favorite apps, photos and important documents. The 1GB ROM can let you enjoy seamless performance during playing games and viewing news in spare time.

Dual SIM

Organize your life better and keep your contacts separate by using 2 different phone numbers. With Dual SIM, you don't need to carry 2 phones around.
