

PHILIPS

NanoProtect Active Carbon Filter

Compatible with: AC3256/60,
AC3259/60.

Reduces odours

FY3432/10

Healthier air, always

Reassurance of TVOC and odour reduction

The NanoProtect Filter has an unfolded active carbon absorption area equal to about 43 football pitches, which provides consistent protection and a long lifetime up to 12 months. The honeycomb-structured active carbon effectively removes various gases, including harmful TVOC and odours.

Long-lasting performance

- Lifetime of up to 12 months

Superior purification

- Effectively reduces TVOC and odours

Highlights

Long lifetime

Unfolded active carbon absorption area is equal to about 43 football pitches, which provides consistent protection and a long lifetime up to 12 months.

Removal of various gases

Honeycomb-structured active carbon is made for the purpose of effectively removing various gases, incl. harmful TVOC and odours.
