

Ergotight Compact Keyboard and Numberpad

Part codes: (see below)

Ergonomic , soft touch, non-reflective keyboard and optional numberpad

Description

The Ergotight keyboard has been designed to have the smallest footprint possible for a compact keyboard with full size keys. The soft touch makes this an ideal solution for users wanting to reduce shoulder movement and keep the mouse close into the working area. The separate optional numberpad gives flexibility to work either left or right handed. The non-reflective surface makes this a good choice for users who need to avoid glare and for environment with overheard fluorescent lighting.

Versions in corded and wireless, the lightweight wireless version is an ideal solution for laptop users.

Details
