

MPN: MMH9753/8GB

## 2x4GB Memory Module ECC/REG, DDR2 PC2 5300, 240PINS, DIMM

In CoreParts you will find a wide range of alternative RAM modules all using original chip sets, that match the performance of your original RAM modules with different sizes, and capacities, manufactured by high-end, certified and trusted suppliers.

- High Quality
- Tested and certified
- Matching Performance
- Reliable with 10 years Warranty

## Specifications

|                    |                                |               |
|--------------------|--------------------------------|---------------|
| Features           | Backlight                      | No            |
|                    | CAS latency                    | 5             |
|                    | Component for                  | PC/server     |
|                    | ECC                            | Yes           |
|                    | Internal memory                | 8 GB          |
|                    | Internal memory type           | DDR2 PC2 5300 |
|                    | Memory clock speed             | 667 MHz       |
|                    | Memory form factor             | 240PINS DIMM  |
|                    | Memory layout (modules x size) | 2 x 4 GB      |
|                    | Memory voltage                 | 1.8 V         |
|                    | Module configuration           | 256M x 4      |
|                    | Product colour                 | Green         |
| Other features     | Capacity                       | 8 GB          |
|                    | Chips organisation             | 256*4         |
|                    | Number of pins                 | 240           |
| Vendor information | Brand Name                     | CoreParts     |
|                    | Warranty                       | 10 Year(s)    |
