Light that's easy on your eyes

Poor quality light could cause eye strain. It's more important than ever to properly light your home. Philips LED lamps fulfil stringent test criteria to ensure that they meet our Eyecomfort requirements†

High-quality light

- Learn about light
- Designed for the comfort of your eyes
- No visible flicker
- Cool, daylight
- Homogen beam pattern

Choose a simple replacement for your old lamps

- Similar shape and size as halogen reflectors

PHILIPS

Choose for a sustainable solution

- No UV or InfraRed
- Long-life bulbs – Last up to 15 years
- Better for your wallet and your planet

Create the right light for your home

- Perfect for accent lighting

Highlights

Learn about light

Colour temperature: light can have different colour temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more tranquil light, while those with a higher Kelvin value produce a cool, more energising light. CRI: the colour rendering index (CRI) is used to describe the effect of a light source on colour appearance. Natural sunlight has a CRI of 100. The CRI of Philips LED lamps is always higher than 80, which ensures that colours are shown as true and natural.

Gentle LEDs, easy on the eyes

It's easy to see how harsh lighting can strain the eyes. Too bright, and you get glare. Too soft and you experience flicker. Now you can gently light up your world with LEDs designed to go easy on the eyes, and create the perfect ambience for your home.

No visible flicker

When your light flickers in quick succession it could be hard on the eyes, cause headaches and even set off an attack for those with photosensitive epilepsy. It's both unpleasant and unnecessary. LEDs can flicker because of their rapid response to the driver current. However, because Philips LEDs are designed so that variations in your driver current's output are minimised, they eliminate the factors that cause flicker. So, you won't see it, not even a hint.

Cool, daylight

This bulb has a colour temperature of 6,500 K, which is the highest colour temperature available in this bulb category. It therefore gives you a lighting effect that is the closest to that of natural daylight. This will help you to focus and experience every detail.

Homogen beam pattern

The Single Optic lens provides a superb light beam without the shadows that normally appear at the beam spread edge, as happens with traditional halogen spots.

Replaces halogen spots

With its beautifully shaped design and familiar dimensions, this is a modern lighting, LED reflector. The perfect sustainable replacement for traditional halogen reflectors.

No UV or IR

The light has no infra-red component, so no heat is radiated. Also, there is no ultra-violet component in this light. These two characteristics mean that this light will not cause fabric and other items to fade.

15,000-hour rated average life

With a lifetime of up to 15,000 hours, you can reduce the hassle of frequently replacing your light bulbs, and enjoy a perfect lighting solution for over 15 years.

Saves up to 80% energy

LED technology saves up to 80% energy compared to your standard

bulb. It therefore pays for itself and saves you money year after year. It also helps to protect the environment.

Perfect for accent lighting

Modern lighting with a familiar wide-angle light output (36 degrees), this LED spot is suitable for both accent lighting and general-purpose lighting. It can be used in recesses and track light fixtures, and is ideal for use in kitchens, kitchen island lighting, living rooms and dining rooms.

Specifications

Bulb characteristics

- Shape: Spot
- Dimmable: No
- Socket: GU10
- Lamp shape code: MR16

Lamp dimensions

- Height: 5.4 cm
- Width: 5 cm

Durability

- Average life (at 2.7 hrs/day): 15 a
- Lumen maintenance factor: 0.7
- Nominal lifetime: 15,000 h
- Number of switch cycles: 50,000

Light characteristics

- Application: Accent light
- Beam angle: 36 degree(s)
- Colour rendering index (CRI): 80
- Colour temperature: 6500 K
- Light Colour Category: Cool Daylight
- Nominal luminous flux: 390 lm
- Starting time: <0.5 s
- Warm-up time to 60% light: Instant full light

Miscellaneous

- EyeComfort: Yes

Other characteristics

- Lamp current: 39 mA
- Mercury content: 0 mg

Packaging information

- Product family: LED Classic, EyeComfort

Power consumption

- Power consumption per 1000h: 5 kW
- Power factor: 0.5
- Voltage: 220–240 V
- Wattage: 4.6 W
- Wattage equivalent: 50 W
- Energy Efficiency Label: A++

Rated values

- Rated beam angle: 36 degree(s)
- Rated lifetime: 15,000 h
- Rated peak intensity: 770 cd
- Rated power: 4.6 W

Packaging dimensions and weight

- EAN/UPC – product: 8718696562765
- Net weight: 0.052 kg
- Gross weight: 0.064 kg
- Height: 14.600 cm
- Length: 4.900 cm
- Width: 9.000 cm
- SAP EAN/UPC – Piece: 8718696562765
- Material number (12NC): 929001218358
- EAN/UPC – Case: 8718696730393
- SAP Gross Weight EAN (Piece): 0.064 kg
- Net Weight: 0.052 kg
- SAP Height (Piece): 14.600 cm
- SAP Length (Piece): 4.900 cm
- SAP Width (Piece): 9.000 cm
