

Bulb

- 6.7 W (60 W)
- E27
- Warm white
- Non-dimmable

8718696576632

Designed to be seen

Looks good off and on

Familiar shapes you know and love. They use around 80% less energy than traditional light bulbs thanks to the latest LED energy-saving technology, and last ten times longer.

Benefits

Choose for the high-quality light

- Learn about light
- True incandescent-like warm white light

Light beyond illumination

- Vintage style, modern LED technology

Choose a simple replacement for your old bulbs

- Similar shape and size as standard incandescent bulbs
- No UV or InfraRed

Choose for a sustainable solution

- Long-life bulbs – Last up to 15 years
- Better for your wallet and your planet

Create the right light for your home

- Perfect for general room lighting

PHILIPS

Features

Learn about light

Colour temperature: light can have different colour temperatures, indicated in units called Kelvin (K). Bulbs with a low Kelvin value produce a warm, more tranquil light, while those with a higher Kelvin value produce a cool, more energising light. CRI: the colour rendering index (CRI) is used to describe the effect of a light source on colour appearance. Natural sunlight has a CRI of 100. The CRI of Philips LED light bulbs is always higher than 80, which ensures that colours are shown as true and natural.

Incandescent-like warm white

This bulb has a colour temperature of 2,700 K, providing you with a warm, tranquil atmosphere, perfect for relaxing. This 2,700 K light is ideal for home lighting design.

Vintage-style, modern LED

LED Classic bulbs are based on standard LED energy-saving technology. Now you can enjoy a retro-style bulb with state-of-the-art technology combined with vintage design.

Replaces standard incandescents

With its beautiful design and familiar shape, this energy-saving LED bulb is the perfect sustainable replacement for traditional incandescent bulbs.

15,000-hour rated average life

With a lifetime of up to 15,000 hours, you can reduce the hassle of frequently replacing your light bulbs, and enjoy a perfect lighting solution for over 15 years.

Saves up to 80% energy

LED technology saves up to 80% energy compared to your standard bulb. It therefore pays for itself and saves you money year after year. It also helps to protect the environment.

Perfect for general lighting

Modern lighting with Philips LED standard bulbs for all-around illumination, perfect for general room lighting.

No UV or IR

The light has no infra-red component, so no heat is radiated. Also, there is no ultra-violet component in this light. These two characteristics mean that this light will not cause fabric and other items to fade.

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.

Bulb characteristics

Shape	Bulb
Cap/fitting	E27
Dimmable	No
Voltage	220–240 V
Wattage	7 W
Wattage equivalent	60 W

Power consumption

Energy efficiency label	A++
-------------------------	-----

Power consumption per 1000h	7 kW · h
-----------------------------	----------

Light characteristics

EyeComfort	Eye Comfort
Light output	806 lumen
Beam angle	300 degree
