# Highlights

## 2000 Watt motor

2000 W motor generates strong suction power for excellent cleaning results.

## AirflowMax technology

The unique AirflowMax technology keeps the suction power stronger for longer\* to use the bag to the very end. The technology is built around the optimization of three key elements: 1) Unique ribs profile inside the dust chamber to maximize airflow around the dustbag and enable the use of the entire bag surface. 2) Specially designed dust chamber capacity that allows the dustbag to fully unfold uniformly. 3) High quality, non-clogging fibre structures in the dustbag absorb dust without blocking the pores, thus avoiding a reduction in suction power.

## TriActive nozzle

The TriActive nozzle applies 3 cleaning actions in one go: 1) It gently opens the carpet with its specially designed soleplate to remove the dust deep down. 2) It sucks up big bits with its larger opening at the front. 3) It picks up the dust and dirt closely alongside furniture and walls with its left and right side air channels.

## 5 s-bags and 1 s-fresh

This product is supplied with additional 5 original Philips dust bags (s-bag®) and 1 pack of scent granules (s-fresh®). Thus, you will not need to buy any dust bags for 1 year after your vacuum cleaner purchase!

## Long reach tool

The Long reach tool is a clever accessory which helps you clean difficult areas like the

top of the furniture or high shelves. The angle of the brush is adjustable, so you can have the exact instrument for your needs.

## IF DESIGN AWARD
