- Tested with 12,000 cable bends for assured durability

PHILIPS

Features

1.2m long cable

2200mW high power handling

High power handling offers high performance whatever the volume or source. Delivery is clear and distortion free even at high volumes or high audio input power levels.

40mm neodymium speaker

40mm neodymium speaker delivers excellent sound clarity with high impact bass from 40mm high power neodymium speaker drivers.

Adjustable earshells, headband

Adjustable earshells and headband are designed to always fits your head comfortably so you don't even notice you are wearing them.

Closed type acoustic

Closed-back system blocks out ambient noise for immersive listening.

Compact foldable design

Made to give you the best experience on the go, the SHL3565 can be folded away for perfect portability and easy storage. Clever design and careful

selection of components including durable hinges allow them to be maneuvered with ease.

Earpieces swivel 165°

Designed with the aspiring DJs in mind, earpieces headphones each rotate 165° for convenient one-ear listening while track mixing. The swivel can also be useful during normal listening, when outside sounds need to be heard.

In-line mic and pick up botton

Nylon wrapped headband

Soft breathable ear cushions

Soft ear-pads improve breathability and dissipate pressure and heat for longer wearing comfort.

Tested with 12,000 cable bends

High resolution audio

High Resolution Audio offers the best in audio performance, reproducing original studio master recordings more faithfully than 16bit/44.1kHz CD formats. This uncompromising quality makes High Resolution Audio the best sound companion for the music lover. These headphones meet the stringent standards required for the Hi-Res Audio stamp of quality.
