

CONGRATULATIONS, CHAMPION!

You're now the proud owner of the ROCCAT™ KONE XTD – Max Customization Gaming Mouse! To build the mighty XTD, our ROCCAT Scientists extended the already formidable domination capabilities of the legendary Kone[+] – and delivered a supreme gaming weapon custom-built for the most battle-hardened fighters. The XTD is powered by an astounding performance package loaded with an 8200DPI Pro-Aim R3 laser sensor, a 32-bit Turbo Core V2 72MHz ARM MCU processor, and the most advanced Tracking & Distance Control Unit around – all working in clockwork unison to deliver world-beating battle ability. Add to that a plethora of ergonomic features designed for the longest play comfort – and a suite of the world's most advanced gaming software for max customization – and you've got an exquisite tool for mastering any world you choose.

Pro-Aim R3 Laser Sensor with TDCU

The 8200DPI Pro-Aim laser sensor offers superb tracking, transmitting even the fastest of mouse movements with no lag – for incredible precision delivering amazing gaming control. And thanks to the integrated Tracking and Distance Control Unit (TDCU), you can adjust the sensor precisely to your mouse pad, further improving tracking and minimizing pick-up-flight – and further advancing your command capabilities.

Easy-Shift[+]™ & ROCCAT™ Driver

Multi-Color Lighting with Effects

The Kone XTD features world famous Easy-Shift[+]™ technology, which lets you set two functions for each mouse button and the scroll wheel – giving you the power to pack a massive amount of quickly-accessible control into a clean, uncluttered space. And the included ROCCAT™ Driver software lets you easily program and fine tune a multitude of settings – and gives you sound feedback with most changes – so you can game exactly how you like.

The Kone XTD offers more than just killer performance: It's also an atmosphere booster that adds to the mood of every gaming session. Flanking its sides are two shimmering light rails powered by 4 independent multi-color LEDs that you can set in your choice of a wide range of vibrant hues. You can even program the rails to execute eye-catching, game-enhancing effects, like "breathing", or a color rotation in your choice of shades.

ROCCAT™ EASY-SHIFT[+]™ TECHNOLOGY

GREATLY INCREASE YOUR MOUSE FUNCTIONS

Ingenious Easy-Shift[+]™ technology lets you assign two functions to each of your mouse buttons and the scroll wheel – putting a huge amount of easily-wielded power right at your fingertips. The Kone XTD's Easy-Shift[+]™ button works just like the shift key on a keyboard. Simply hold it down and simultaneously press one of the other mouse buttons – or the scroll wheel (including up and down) – and you execute a second function. This incredibly handy feature increases the number of available functions from 12 to 23.

GET EVEN MORE MACRO MIGHT

Easy-Shift[+]™ also lets you control powerful driver functions right from your mouse – giving you quick control over things like your multimedia options. For example, you can launch your media player, switch music tracks and adjust volume – all with the simple press of a mouse button or scroll of your mouse wheel. With the Kone XTD, flawless ergonomics and maximum functionality coexist in perfect harmony.
