Smart ear thermometer

uGrow connected

Fast and accurate
Comfortable and easy to use

SCH740

Measures and records your child's temperature

Accurate, fast, uGrow connected ear thermometer

The Philips Avent smart ear thermometer makes it possible to quickly and accurately take temperature readings and store them directly to your smart device using the uGrow app.

uGrow connected

- Part of the uGrow family of connected products
- Track and better understand your child's temperature
- Connects with Bluetooth® Smart to the uGrow app

Fast and accurate

- One press and in 2 seconds you have an accurate reading
- Accurate results $\pm 0.2\text{ }^{\circ}\text{C}$ / $\pm 0.4\text{ }^{\circ}\text{F}$
- Red LED display ring for rapid high temperature indication
- Gives results in Celcius and Fahrenheit

Comfortable and easy to use

- Designed for easy, comfortable in-ear measurement*

AVENT

Highlights

A uGrow connected product

The Philips Avent smart ear thermometer connects with our uGrow app. The world's first medical baby app with connected devices giving you personal advice that matters. Let uGrow help you discover patterns to support your little one's healthy development.

Track and record

The Philips Avent smart ear thermometer quickly and accurately takes temperature readings and establishes a body temperature history in the uGrow app to easily share with your doctor.

Fast

Keeping your child still long enough to take an accurate reading can be difficult. The Philips Avent smart ear thermometer addresses this

problem by being specially designed for speed and ease. Just one press of the button and you will have a reading in 2 seconds.

Accurate

Body temperature can be measured in five locations: the mouth, the ear, the armpit, the forehead and the rectum. In-ear measurement (also known as tympanic measurement), along with rectum, is the most accurate form.* The Philips Avent smart ear thermometer uses in-ear measurement to offer precise readings you can be confident with. Our research has shown that this thermometer offers a medical grade measurement with $\pm 0.2^{\circ}\text{C}$ or $\pm 0.4^{\circ}\text{F}$ accuracy within the range of 32.4°C - 42.9°C (90.3°F - 109.2°F). Reflects body core temperature.*

High temperature indication

The Philips Avent smart ear thermometer has a clear LCD display so you can instantly see if the temperature reading is at normal* or raised levels. The light ring turns red for a temperature of 38.0°C (100.4°F) and higher*.

Comfortable and easy to use

The Philips Avent smart ear thermometer is designed for quick, easy and comfortable use. Compact and streamlined, the thermometer has a simple one touch button and a probe tip that is suitable for all ages.

Celsius and Fahrenheit

No matter whether you work in Celsius or Fahrenheit, the Philips Avent smart ear thermometer will give you the results you need in the scale you understand.

uGrow connected

The Philips Avent smart ear thermometer connects with Bluetooth® Smart to your mobile device. Works with: iPhone®: Version iOS8.1 / iPhone® 5s and newer; Android™: Android™ 4.4 KitKat and above.

Specifications

Syncing

- Data transfer: via Bluetooth® Smart
- Phone compatibility: iPhone 5s+ | iOS 8.1+ | Android 4.4 +

Design

- Color: White
- Dimensions: 136(L)x34.5(W)x57(D)mm
- Net. Weight: About 54.6g

Ease of use

- Fast: 2 second measurement
- Switch to Celsius & Fahrenheit
- Clear LCD display
- Probe tip for all ages
- Standalone device: Yes, ear thermometer can be used as a standalone device

Technical

- Accuracy: $\pm 0.2^{\circ}\text{C}$ ($\pm 0.4^{\circ}\text{F}$) within the range of 32.4°C - 42.9°C (90.3°F - 109.2°F)
- Measurement range: 32.4°C - 42.9°C / 90.3°F - 109.2°F
- Operating environment: 10.0°C - 40.0°C (50.0°F - 104.0°F) with a relative humidity of 20% - 85%

Power

- Power source: 2 x AAA non-rechargeable batteries

Accessories

- 2 x AAA batteries: non-rechargeable

Service

- Two year guarantee
