

Height-Adjustable Sit-Stand Desktop Workstation

MODEL NUMBER: **WWSSDT**

Adapt a traditional desk for sit-stand ergonomics without modifying the entire work surface. Place this workstation on a flat surface, and adjust the height of your monitor and keyboard for different working positions.

Description

Tripp Lite's WWSSDT Standing Desktop Workstation allows you to enjoy the benefits of standing for a portion of the day without using your entire work surface. Simply place the WWSSDT on a fixed-height desk or table. With a single touch, you can change the height of your monitor and keyboard to improve ergonomics, promote health and increase productivity.

To adjust the height of the WWSSDT, press the lever to raise or lower the pneumatic spring arm. The monitor platform and keyboard move together to provide smooth transitions between sitting and standing. An adjustment on the rear of the workstation gives you the option to increase tension for heavier loads or decrease it for lighter items.

The WWSSDT has a heavy-duty base that's only 19.3 x 13.8 inches, so it doesn't occupy your entire work surface. The base provides stability at all workstation heights, yet it can be easily moved or repositioned. Maximum weight capacity is 28.6 pounds.

Monitor platform is 23.6 x 15.7 inches and adjusts between 6.3 and 17.5 inches above the work surface. It's sturdy enough to support a dual-arm display mount. Integrated cable management reduces cable clutter.

Keyboard tray is an oversized 26 x 8.5 inches to accommodate the some of the largest, most popular models.

Features

One-Touch Height Adjustment for Sit-Stand Ergonomics

- Lever raises or lowers pneumatic arm for smooth height adjustment
- Monitor platform and keyboard tray move together for seamless sit-stand transitions
- Use included hex key to increase or decrease tension according to load
