PHILIPS

Highlights

3 pre-selected drying settings

This compact hair dryer offers you 3 pre-selected heat & speed setting for cool, caring or quick drying.

Cool air setting

A cool air setting allows you to dry hair at relatively low temperature to minimize damage, which is suitable for especially fine, dry and damaged hair. And it is a perfect setting for the hot summer season!

Compact size

Compact and ergonomic, this hairdryer benefits from a clever modern design. This results in a dryer that is light and easy to handle.

Fast air setting

Fast air setting (II) offers higher temperature and more powerful air flow. Although the size

is compact, the power of 1200w enables you to dry your hair in an efficient & gentle way.

ThermoProtect

The ThermoProtect setting provides the optimal drying temperature while giving additional protection. The ThermoProtect optimal airflow and heat combination allows you to quickly dry your hair without overheating, maintaining your hair's natural moisture level, for shiny healthy looking hair.

Ionic care

Give your hair an instant care with ionic conditioning. Charged negative ions eliminate static, condition the hair and smooth down the hair cuticles to intensify the hair's shine and

glossiness. The result is smooth and frizz-free hair that shines beautifully.

1200W

This 1200W hairdryer creates the optimum level of airflow and gentle drying power, for beautiful results every day.

Foldable handle

This hairdryer benefits from a foldable handle. The result is a small, compact hairdryer that will pack easily into even the smallest spaces and that you can take virtually anywhere.
