

NEC Digital Signage Solutions

32", 42", 46", 55", 65" & 80" LED edge-lit, commercial-grade LCD displays bundled with AMD Dual Core OPS single board computers

Take the fast track to high-quality digital signage with full PC functionality integrated directly within an NEC display. NEC's

single board computer (OPS-PCAF-WS), boasts an AMD 1.6 GHz Dual Core Fusion APU and adheres

to the Open Pluggable Specification (OPS), the industry's first standardized input to increase flexibility for users of any digital signage application. Combining this PC with the high-performance panel of the NEC V Series (42", 46", 55", 65" and 80" sizes available), these bundles are a wonderfully simple solution for dynamic digital signage. Utilizing the expansion slot integrated into V Series displays, the PC provides for clean, hidden integration while reducing the bill of materials needed for installation and eliminating the hassle of hiding hardware equipment. Whet appetites in restaurants. Build brand awareness in retail. Turn heads in corporate lobbies. The digital signage possibilities are virtually endless.

Highlights

- **Present, share and collaborate** with included DisplayNote® NEC Edition presenter license
- **LED backlighting technology** reduces power consumption and allows for a slimmer cabinet depth
- **Integrated PC (OPS-PCAF-WS)** is optimized for reliable 1080p video playback
- **1920 x 1080 FHD native resolution** in true 16:9 aspect ratio, maximum brightness of up to 500 cd/m² and typical contrast ratio of up to 5000:1
- **TileMatrix™ technology** enables video walls (up to 100 displays in a 10x10 matrix)
- **Integrated 10W speakers** provide stereo audio for those applications requiring sound
- **Optional color calibration solution** ensures color uniformity and fidelity across individual and multiple screens, creating a perfectly matched image in tiled environments
- **Diverse input connectors** allow for maximum compatibility and flexibility during product implementation
- **OPS-PCAF-WS' 3-year warranty** matches that of the display
- **NEC Content Management Software (CMS)**, a SaaS web-based, digital signage software, is available at no charge
