

Total Freshness
Inside Every Refrigerator

The Features that
Meet your needs

Sharp's innovative technology is the hallmark of its refrigerators. Its renowned Plasmacluster Ion Technology keeps food fresh longer and free from contaminants. Besides that, its sleek designs and outstanding features provide the convenience and elegance for you and your home. On top of all, Sharp has the widest range of refrigerators that best suits every individual's tastes, needs and budget.

An array of innovative features that marks **Sharp as No.1 Choice** in Refrigerator:

- ... Intelligent Mode Indicator...
- ... Touch Control Door Panel...
- ... Hi-Density Plasmacluster Chiller Compartment...
- ... Dual Swing Door Convenience...
- ... Door Alarm Indicator...
- ... ActiFresh Hybrid Cooling System...
- ... Ag+ Deodoriser...
- ... Auto Ice Cube Maker...
- ... Centre Pillarless Design...
- ... Bottom Freezer...
- ... Four Door Convenience

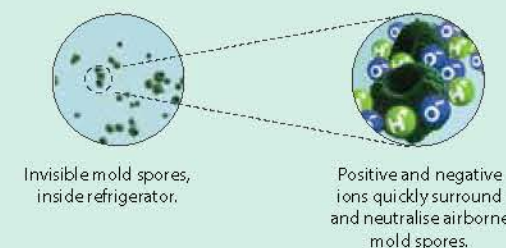

Plasmacluster Ion Technology

Sharp's advanced Plasmacluster Ion Technology, eliminates 99% bacteria and 97% mold in your refrigerator. As a result, your foodstuff stays naturally fresh longer and are free from contaminants.

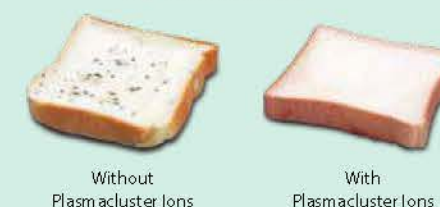

How Plasmacluster Ions Work

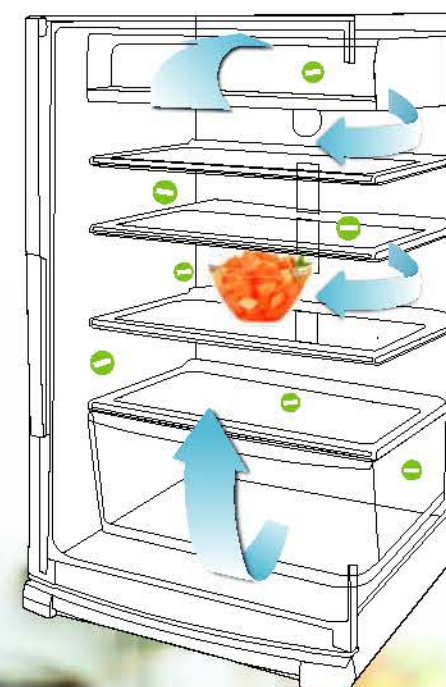

Food Freshness Comparison

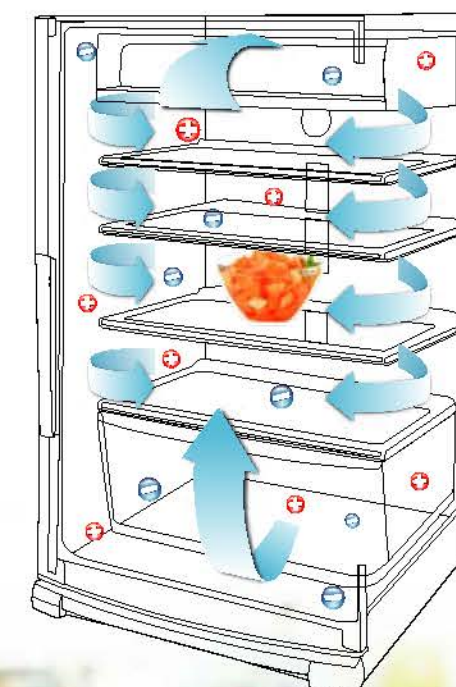

AFTER 10 DAYS

Conventional Refrigerator

Plasmacluster Ion Refrigerator

ActiFresh Hybrid Cooling System

Cools Your Refrigerator Evenly

The rear aluminium panel inside is cooled to approximately 0°C, and extremely humid chilled air is spread throughout the compartment to keep food fresh. This prevents excessive dryness, uneven cooling and over cooling.

With Hybrid Cooling System

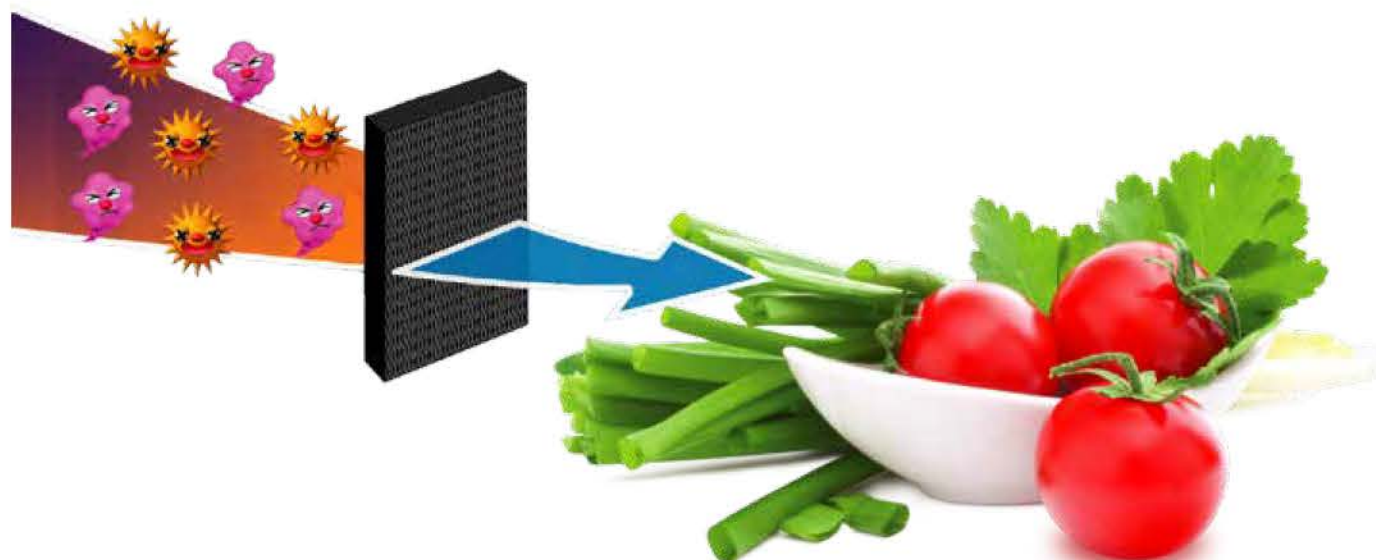

With Conventional Cooling System

Ag+ Deodoriser

Help Reduce Odours

Honeycomb Deodoriser is placed in the back of the refrigerator compartment to reduce both odours and bacteria. When air passes through the filter, the molecules that create smells are oxidised and broken down.

6-Door Refrigerator

6 Door Convenience...

...for Freshness

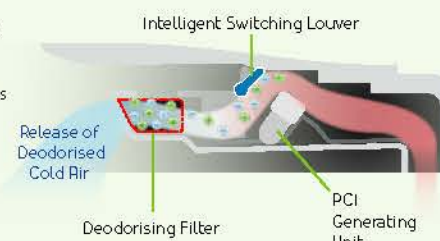

Extraordinary Size with Extraordinary Features!

Sharp's Plasmacluster Technology eliminates mold and bacteria, locks in food freshness and also neutralises odours in your refrigerator. Its user-friendly features and energy-saving operation is the unique aspect of Sharp's SJGF60WAM 6-Door Refrigerator.

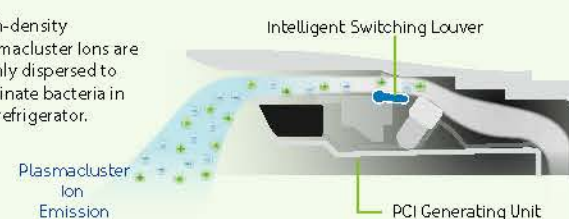

Deodoriser

The deodorising filter with high-density Plasmacluster Ions neutralises the odours and eliminates airborne odour particles.

Eliminates Bacteria and Mold

High-density Plasmacluster Ions are evenly dispersed to eliminate bacteria in the refrigerator.

Easy Access to Vegetable Storage with Plasmacluster

Plasmacluster Ions Protect Fruits and Vegetables from Contamination

The vegetable compartment is equipped with Plasmacluster Ion generator and fan, which spreads Plasmacluster Ions evenly throughout the compartment to eliminate bacteria clinging to the surface of your fruits and vegetables.

Storage System Ensures Easy Access

A combination of deep and shallow trays in the vegetable compartment makes it possible to separate large and small vegetables. Bottles and long vegetables can be stored upright in the moisture-sealed compartment.

High-Humidity Vegetable Compartment

The tightly sealed high humidity compartment preserves freshness and provides moisture to your fruits and vegetables. It also disperses the chilled air evenly throughout the compartment keeping your vegetables fresh!

Intelligent Cooling System

INVERTER
Technology

Intelligent Cooling System controls the high-performance compressor according to conditions in the refrigerator. Furthermore, it allows low-speed, energy-saving operation and efficient heat dispersion, this system reduces energy waste and enables significant energy savings.

High-Performance Compressor

Other Power-Saving Features

● **Auto-Closing Doors**
Doors shut automatically when it's left partially opened (10 cm).

◀ Auto-Closing Doors

● **Door Alarm Light Indicator**
When your refrigerator door is opened for a long period of time, a beeping sound alerts you to close the door so that the refrigerator could preserve freshness of your food items.

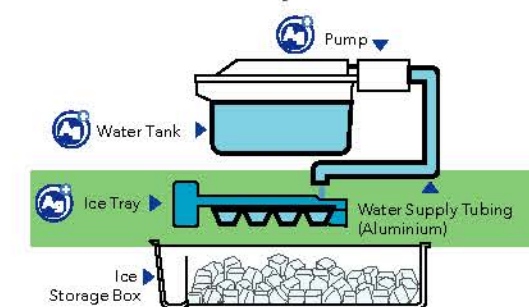

● **Pillarless Design**
The Pillarless Design in the refrigerator compartment reduces energy consumption.

▲ Door Alarm Light Indicator

Easy and Convenient Functions

Hassle Free Ice Making Process

Ice Maker automatically makes small and large ice cubes after the water tank has been filled with water. The water tank, pump, and ice trays are coated with Ag+ Antibacterial Ions, so it doesn't require any maintenance. Cleaning becomes easy with Auto Cleaning function which cleans the ice trays and water supply tubing automatically.

- **Express Freeze Mode** quickly freezes food to lock its freshness.
- **Low-Temperature Freezing¹²** prevents cell damages to your food and preserves their flavours.
- **Hot-Food Freezing** makes it possible to freeze warm foods (up to 60°C)¹³ in the upper freezer.

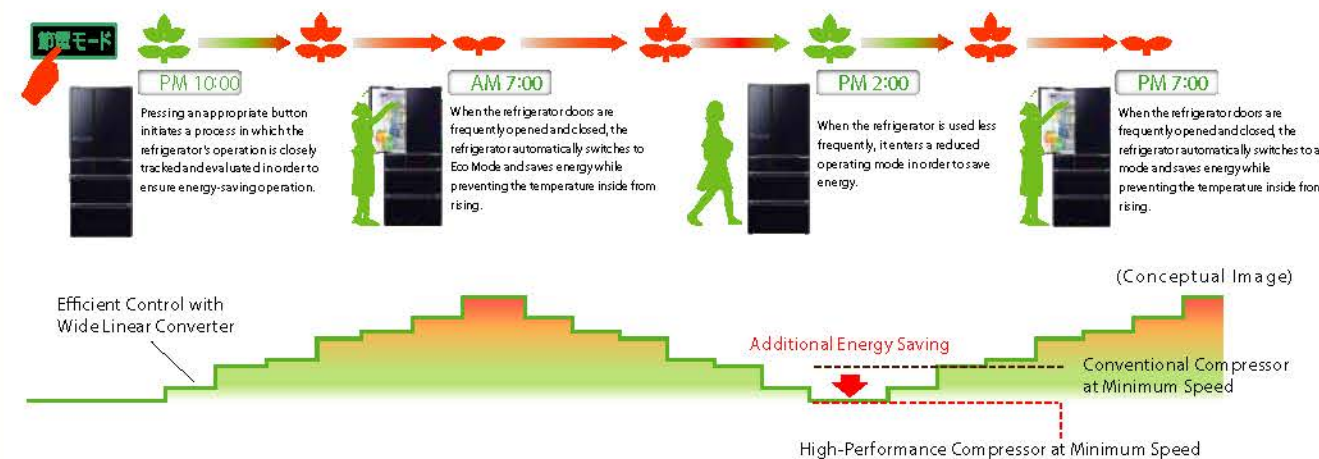

3-Step Power-Saving Mode

Energy-Saving Operation

Sharp's SJGF60WA features a Power Saving Mode¹⁴ which automatically assess the refrigerator usage, thus saving energy consumption.

Energy Saving

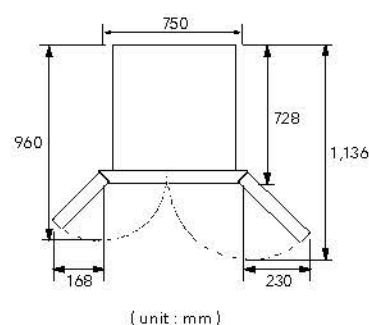

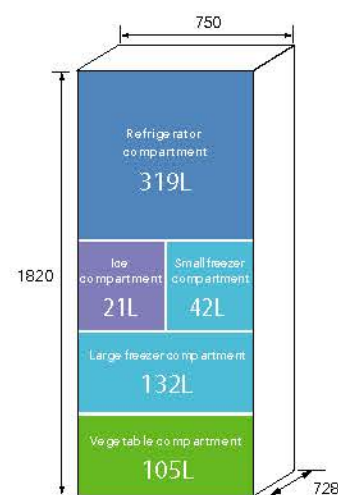

¹¹ The effects of Plasmacluster Ions may vary depending on such usage factors as the amount of food and its placement inside the refrigerator. This does not constitute a guarantee to prevent food poisoning.
¹² Running the refrigerator at the Low-Temperature Freezing setting requires approximately 10% more power consumption. Normal freezing will automatically resume after 90 days.
¹³ Open more than 5 cm if there is other food inside the unit.
¹⁴ Power saving will vary depending on the usage environment (such as temperature setting, ambient temperature, how often the doors are opened and closed, and the amount of food stored in the refrigerator).

Double French Four Door Refrigerator

So
Intelligent...

...in Keeping Your Food Fresh

Intelligent Mode Indicator

Blue, Green, Orange The Intelligent Colours that Maintains Freshness

The elegantly designed refrigerator handle, displays the status of refrigerator with 3 different colours. These intelligent colours make it easy for you to observe the status of refrigerator from outside without opening the doors.

Plasmacluster Ion Mode ON

Indicates Plasmacluster Ion Mode. Keeping your food free from mold and bacteria and also maintain them fresh longer.

Eco Mode ON

Indicates Eco Mode. Energy saving feature that reduces electricity consumption by 10%.

Temperature Increase Sign ON

Indicates the temperature increase in the refrigerator. A warning sign informing you to check on it.

Touch Control Door Panel

Control at Your Fingertips

The stylish touch panel allows you to control the temperature, switch modes according to your preference and monitor the status of ice making. It also allows you to monitor the water level and its self-cleaning mode from outside without opening the refrigerator's door. Designed to prevent temperature fluctuation and preserve food freshness.

High Temperature Indicator

Door Alarm Light Indicator

Warns You to Keep the Doors Closed to Preserve Freshness

When your refrigerator door is opened for a long period of time, the Blue light inside the fridge gradually turns into Orange followed by a beeping sound alerting you to close the door so that the refrigerator could preserve freshness of your food items.

Blue Light = OK

Orange Light + Beep = Door Need to be Closed

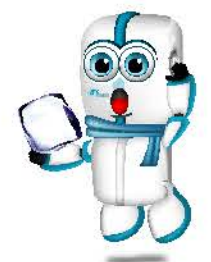

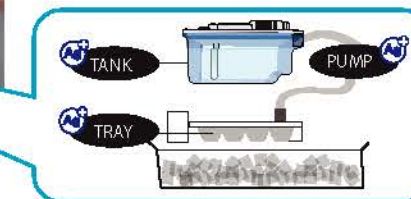

Auto Crystal Clear Ice Cube Maker

Hassle Free Ice Making Process

This technology offers hassle-free ice making process where you just need to fill up water in the water tank and the refrigerator makes the ice cubes for you automatically!

Four Types of Ice Cubes

Crystal Clear Ice Cube

Large (2.5 x 1.5 x 1.5)

Regular

Normal Ice Cube

Large (2.5 x 1.5 x 1.5)

Regular

Forming crystal clear ice cubes that are all ice, with less air bubbles trapped inside them that make them look cloudy. Advance Crystal Clear Ice Cube Maker removes all the trapped air to produce solid ice cubes that are slower to melt. Your drink remains ice-cold longer.

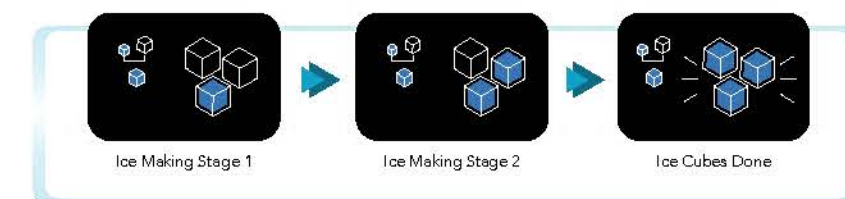

Self-Cleaning System with AG+ Ion

The Ice Making System consists of water tank, pump and tray which are all coated with AG+ Antibacterial Ions, so it doesn't require any maintenance. Cleaning also made easy with a touch of the Ice Maker Cleaning Mode which only takes 40 seconds.

LED-Status of Ice Making

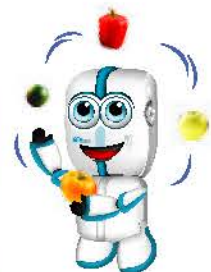

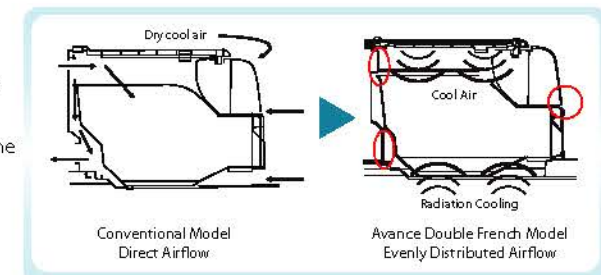

You can choose the type of ice cubes you want from the touch panel without opening the door. Monitor the ice making process by observing it at the touch panel.

Optimised Cooling System

A New Innovative Cooling System to Prevent Dryness

The new Double French cooling system is designed to minimise loss of moisture in the vegetable compartment. Unlike conventional system where the food is in direct contact with cool air, Optimised Cooling System diversifies cool air evenly into the compartment keeping food fresh longer.

Innovative Fusion of Forms and Function

Bottom Freezer

In a recent study* conducted by Sharp, the main fridge compartment is opened 70% of the time in a single day. With the freezer re-located at the bottom, the fridge compartment is now easily accessible. So, you can conveniently put in and remove items from the fridge compartment without having to bend down every time.

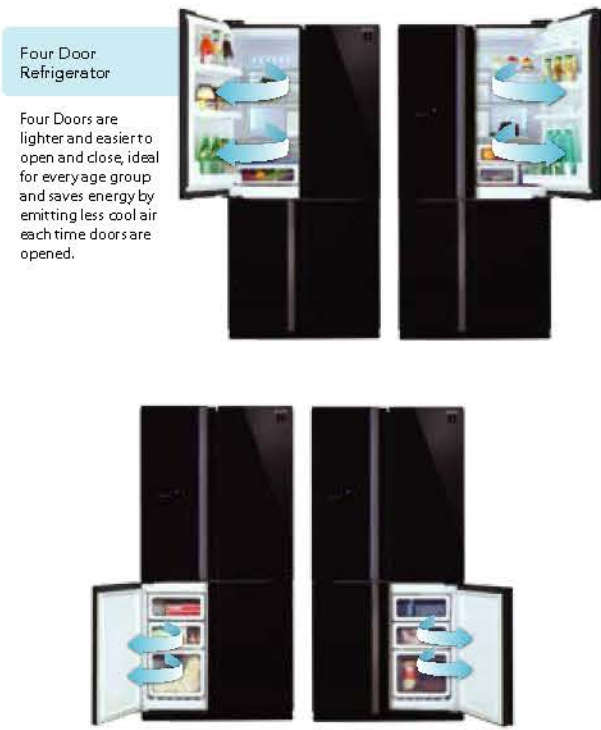

Pillarless Design

Unlike side-by-side refrigerators, the unique Double French Refrigerator lets you store bigger items easily in its huge, non-compartmentalised pillarless fridge section.

Four Door Convenience

Four doors occupy less space opened while the interior remains wide enough to accept extra-large food items. By opening just one door, the escape of chilled air is minimised, thus retaining the freshness of the food and also saving on energy.

Side By Side Refrigerator

Freshness and Elegance...

...Side by Side

An Innovative Design To Suit Your Contemporary Lifestyle

Sharp's Side-by-Side refrigerator conveys an elegant outlook to your kitchen added with its sleek design and also smart features that keeps your food fresh longer.

Convenience

Sharp's Side-by-Side refrigerator with simplified features brings comfort and convenience to you.

Ice And Water Dispenser

Fully automatic Ice and Water Dispenser allows you to savour cold refreshments anytime of the day. Choose cold water or ice cubes by simply pressing the button on the control panel.

LED Touch Display

The digital LED display panel allows you to monitor and control the condition of your refrigerator at your fingertips.

Xpress Can Chiller

Your favourite canned beverages will be chilled faster and maintained cooler in the space provided.

Plumbing Free Water Tank

This feature does not require any plumbing installation to the water tank. Sharp's Side by Side refrigerator's water tank is maintenance free.

Spill Proof Shelves

All shelves in Sharp's Side-by-Side refrigerators are made of spill-proof glasses, preventing water leaks from accidental spills and also keeping the shelves clean.

Temperature Alarm

Alarm sign will turn on when your refrigerator detects temperature fluctuation in it. It alerts you in order to preserve freshness of your food items.

Freshness

Your food remains fresh longer with these brilliant features.

Magic Cool Zone

This compartment allows you to select the item you would like to store in it. Choose either iFRESHi, iVEGETABLEi, iFISHi or iMEATi and the refrigerator will adjust its temperature accordingly to preserve the freshness of your food.

Digital Smart Control

This feature able to sense temperature change when warm food is stored in. Temperature changes are transformed into digital information to control cooling cycle and system effectively to keep the freshness of your food.

Frost Free

Sharp's Side-by-Side refrigerator is convenient to use because you don't need to scrape frost in the freezer and it has 5 times more powerful freezing capacity than other systems.

Transparent Freezer Drawer

Transparent freezer drawers keep the chilled air inside the refrigerator while the door is open. It also allows you to view your food items without opening the drawers.

Quick Cool

Sharp's Side-by-Side refrigerator also comes with the new cooling system which ensures 1.3 times faster cooling to preserve the freshness of your food items.

Door Alarm

When your refrigerator door is opened for a long period of time, an alarm sound will alert you to close the door to preserve freshness of your food items.

More Space

Generous space with designated compartments allows you to store your food items accordingly.

Big Capacity

Feel the exceptionally large space which enables you to store big items without a fuss.

Small Item Freezer

A space saving compartment to keep your small food items.

Multiplex Compartment

Keep your frequently used items in this special section for easy reach.

High Capacity Water Tank

Just fill up water in the High Capacity Water Tank and the refrigerator makes the ice cubes for you automatically!

...Convenience and Control

Kagami series
430L - 700L

Touch Control Door Panel - Control at Your Fingertips*

Adjust settings without opening the fridge door to reach the control panel. Now you can easily set the controls with Kagami Touch's handy external touch-activated control panel located on the freezer door. Instantly see the new settings on the LCD display screen, and keep the cold air where it belongs – inside the fridge.

Control panel settings: On/Off for Plasmacluster, Temperature control, ECO mode.

Cylinder Handles

The exquisite design components of this refrigerator include cylindrical handle that give pleasure not only to the sense of sight, but to the sense of touch as well.

* For model SJP799G & SJP699G only

Hi-Density Plasmacluster Chiller Compartment - Fresher Dairy Products

Keep your dairy products, such as cheese and butter, fresher and for longer time periods. Using SHARP's revolutionary Plasmacluster technology, Kagami Touch's High Density Plasmacluster Chiller Compartment releases large amounts (7000 ions) of positively and negatively charged ions to eliminate bacteria which cause food to spoil faster.

Dual Swing Door Refrigerator

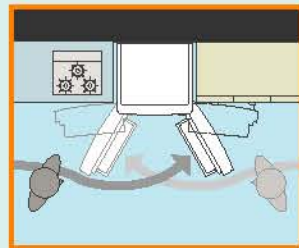

You Can...

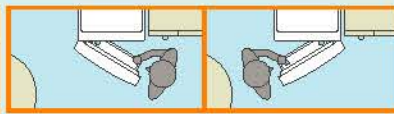

...Have It Both Ways

Dual Swing Door Easy Access to Your Food Either From Left or From Right

Open door either from left or right

Open partially to reach for your food

No distraction of walls, you can place it anywhere

Sharp's Dual Swing Door Refrigerator allows you to open its door either from left or from right as you wish. You can place it anywhere in your home. The door hinges are built tough for your safety and will only open from one side at a time, giving you an easy accessibility to reach your favourite food items.

Fridge Top

Allows You to Take or Keep Your Food with Natural Posture

By placing the fridge compartment on the top, it eases the burden of frequent bending to the compartment as it is the most frequently used compartment.

Having to bend down to access vegetables everyday puts strain on your back.

One Action Drawer

One Step Freezer Drawer

Only one action to draw out the freezer compartment thereby allowing easy access to the compartmentalised freezer drawer. Additionally, its freezer case is also removable for easy cleaning.

Hippo-mouth Vegetable Case

Large Space for Easy Access to Your Food

Kangaroo Pocket

Dual Storage for Large and Small Bottles

Other Features

Double Egg Compartment

Sharp's Dual Swing Door Refrigerator comes with not one but two egg compartments for your storage convenience.

Adjustable Shelf (7 levels)

Position the shelf vertically according to the height of your foods. You can choose to position it at 7 different levels to fit in large or small items.

Myfridge

Everyday...

...is a Fun-Filled Day

Quality and Reliability

Every SHARP refrigerator comes with ISO 14001 certification and the SIRIM stamp of approval. This attests to the stringent and uncompromising quality standards set by the SHARP manufacturing fraternity.

Environment Friendly

SHARP refrigerators are designed as Non-CFC, upholding its corporate social awareness with regards to the environment.

Extra Large Freezer Compartment

The fridge comes with an extra large freezer compartment giving more room to store foodstuffs.

Spacious Interior

Door pockets roomy enough to store big bottles and interior compartment spacious enough to hold many items which makes the refrigerator more accommodating than most.

Energy Saving

SHARP refrigerators operate on a high energy efficiency ratio which translates to more than 25% energy savings. It has garnered a '5-star' rating for energy savings, tested and approved by SIRIM and Suruhanjaya Tenaga.
