Project complete
confidence -
anywhere,
anytime.

Imagine boarding a plane equipped with an incredibly small projector that fits in the palm of your hand, yet has the extraordinary power to last through marathon business meetings.

Consider the possibilities where space is tight - conference rooms and classrooms. Imagine having the flexibility of saving files to the embedded memory of your projector. Or seamlessly streaming from your tablet and mobile through an embedded Mobile High-Definition Link (MHL). Now, consider having the flexibility to project plugged into a desktop computer or even directly from your mobile device using Mobile High-Definition Link (MHL). The RICOH® PJ WXC1110 projection system delivers all this and more.

Present information in the best light

Project bright and vibrant presentations, movies, graphics and videos with LED technology, rather than high-pressure mercury lamps that need to be replaced often or can break during transit. This powerful LED technology lasts and lasts – 20,000 hours in Bright Mode and 30,000 hours in Eco Mode, further increasing life of the LED light source. Ultra clear image at 600 lumens, a 600:1 contrast ratio (40,000:1 in High Contrast Mode), auto keystone correction and 16.7 million colour reproducibility delivers the quality you expect from of a full-sized projector.

Grab, go and present

When you're traveling for business, you need technology that lightens your load and makes your information resonate. The palm-sized PJ WXC1110 weighs just 0.45 kg, making it ultra portable for business travel, consultants, on-premises training or even design discussions where teams need space to review drawings and other design materials. It can project on a variety of surfaces, turning any flat wall into a projection space. Project easily in smaller spaces not typically conducive to presentations. It can even be used as a small digital signage system in a retail store or a rental device at events and hotels for continuous playback of movies and images.

Flexible and smart presentations.

Leave a bigger impression

Sometimes you need to present in small spaces. Sometimes you have a little more room. The versatile PJ WXC1110 short throw projector makes presentations come alive in both mid-size and small environments. With a short throw ratio of 0.8m, this projector can display at close range of just 17 inches with an impressive 25-inch diagonal screen. Or, it can project a 200-inch screen from a distance of more than 3 metres. So, you have the ultimate flexibility to adjust to your presentation space on the fly and impress your audience with a bold display and captivating information – no matter where you are.

Display plugged or unplugged

Often, your data is stored on different devices. That's not a problem with the PJ WXC1110 projector. You can plug it into your Mac or PC or to present the traditional way. You can even project Microsoft® Office and Adobe® PDF files using the media player integrated into the PJ WXC1110 projector. Just save these files to a micro SD card, USB drive or the projector's built-in memory that stores up to 2.8 GB of data, to give PC-free presentations quickly and easily.

Deliver a smart presentation

Your mobile device goes where you go. And sometimes, that's where your most compelling information lies. With the PJ WXC1110 projector, you can present images, videos and other files directly from your enabled iOS, Android or Windows mobile device with HDMI/MHL connectivity – turning your projector into an innovative smart display, and adding the simplicity, convenience and sophistication of smart technology to your business presentations.

RICOH PJ WXC1110 - Handy Short Throw Projector

MAIN SPECIFICATIONS

GENERAL

System:	Single Chip DLP®
Resolution:	WXGA – 1280 x 800
Liquid Crystal Panel:	Size (Inch): 0.45"
Aspect ratio:	16:10
White Light Output (Brightness):	600 lumens
Contrast Ratio:	Native: 600:1, High-Contrast Mode: 40,000:1
Screen Size (Diagonal):	50 – 100"
Projector Mode:	Standard, Rear
Projection distance:	0.43 – 3.44 m (from rear of unit to projection surface)
Throw Ratio:	0.8m
Light Source:	RGB LED
Color Reproducibility:	16,700,000 Colours (24 bit)
Light Source Life:	
Bright Mode	20,000 hours
Eco Mode	30,000 hours
Projection Lens:	
Lens:	Fixed
Keystone Vertical:	+/- 40 degrees
Shift/Method:	N/A
Zoom Ratio:	N/A
Zoom/Focus:	Fixed/Manual
Interface:	
Input Signals:	NTSC, PAL, SECAM, PAL-M, PAL-60, NTSC 4.43 (60Hz/50Hz)
Input Interfaces:	HDMI (MHL) x 1, USB-A x 1, VGA x 1 (Computer IN), Micro SD Card x 1 (Read only)
Output Interfaces:	Phone OUT x 1 (3.5mm Mini Jack)
Network Interfaces:	Wireless LAN is available with HDMI Wi-Fi
Other Interfaces:	N/A
Supported OS:	
Advanced Network Utility:	N/A
JPEG Conversion Utility:	N/A
Projector Management Utility:	N/A
Built-in Speaker:	1.5W
Body Memory (Internal):	2.8 GB available
Dimensions (W x D x H):	112.5 x 50.5 x 105 mm
Weight:	0.45 Kg
Power Source:	100/240V; 50 – 60 Hz
Power Consumption While Operating:	
Full Mode:	65 W
Stand By Mode:	Less than 0.5W
Storage & Transportation	Operational Temperatures: 41° to 104° F (5° to 40° C), 20% to 80% humidity (non-condensing)
Environment Temperatures:	Storage Temperatures: -4° to 140° F (-20° to 60° C), 20% to 80% humidity (non-condensing)
Fan Noise:	
Standard Mode:	34 dB or less
Eco Mode:	24 dB or less
Features:	AV Mute (Blank), Re-size (Magnify), Auto Keystone, Password Protection, Wall Color Mode, Kensington Lock, User Logo, Eco Mode, 3D Projection Ready (DLP Link only), Firmware Update
Supported Utilities:	N/A
Options:	N/A
Included with Projector:	CD-ROM with user manual, Quick start guide, RGB cable, AC adaptor and power cord, Carrying bag, Lens cap, Remote control and Coin batteries
