

HP Latex 375 Printer

Gain more unattended printing at lower cost of operation with this full-feature 1,63 m printer

Expand your applications – beat client expectations

- Get higher margins¹ printing on traditional signage substrates and beyond – even textiles² – up to 1,63 m.
- Reach more indoor spaces, like healthcare – water-based HP Latex Ink prints are odorless.²
- Enjoy efficient, automated double-sided banner printing.
- Produce sharp, consistent, repeatable image quality with high-efficiency curing, 6 colours, and 1200 dpi.

Same-day delivery with more unattended production

- High quality at high speeds – 31 m²/hr high-speed outdoor quality with HP OMAS, HP Latex Optimizer.³
- Increase unattended printing with confidence – change 3 liter HP Latex Ink cartridges while the printer runs.
- Reach production speeds and avoid wait time – prints come out completely dry and ready to finish and deliver.
- You can minimise damage risk – scratch resistance is comparable to hard-solvent inks on SAV and PVC banner.⁴

Keep running costs low with 3 liter ink cartridges

- Help reduce your cost per print with cost-effective, 3 liter HP 871 Latex Ink Cartridges.¹
- Reduce time – HP Custom Substrate Profiling and i1 embedded spectrophotometer make ICC profiling automatic.⁵
- Maintain high image quality over the life of the printer with user-replaceable HP Thermal Inkjet printheads.
- Monitor your printer remotely with the free HP Latex Mobile app.⁶

¹ For the HP Latex 375 Printer using cost-effective, high-capacity HP 871 3 liter Latex Ink Cartridges compared to the HP Latex 365 Printer using HP 831 775 ml Latex Ink Cartridges.

² Performance may vary depending on media – for more information, see <http://www.hp.com/go/mediasolutionslocator>. For best results, use textiles that do not stretch. The ink collector is required for porous textiles. Odorless prints: there is a broad set of media with very different odor profiles. Some of the media can affect the odor performance of the final print.

³ Banner-quality prints in outdoor (4-pass 4-colour) mode.

⁴ Estimates by HP Image Permanence Lab on a range of media. Scratch-resistance comparison based on testing HP Latex Inks and representative hard-solvent inks. Outdoor display permanence tested according to SAE J2527 using HP Latex Inks on a range of media, including HP media; in a vertical display orientation in simulated nominal outdoor display conditions for select high and low climates, including exposure to direct sunlight and water; performance may vary as environmental conditions change. Laminated display permanence using HP Clear Gloss Cast Overlaminates. Results may vary based on specific media performance.

⁵ ICC profiling with the spectrophotometer does not support uncoated textiles and backlights.

⁶ HP Latex Mobile is compatible with Android™ 4.1.2 or later and iOS 7 or later, and requires the printer and the smart phone or tablet to be connected to the Internet.
